

IMPACTING the future of health care

As a teaching institution, Denver Health is dedicated to the education and training of the next generation of health care providers. Denver Health serves as the clinical training facility for students who are pursuing 34 different health professions and is an education and research partner with the University Of Colorado School Of Medicine.

Denver Health has received funding for 468 health care research projects in the past year. The U.S. Department of Defense and Department of Health and Human Services are just two of the many organizations we partner with to find new ways to deliver top quality health care to patients.

Denver Health is one of the largest employers in the city of Denver with a workforce of more than 7,000 devoted employees. As a mission-driven organization with an impressive benefits package, Denver Health attracts the industry's top talent.

THE BUZZ

Reviews from our social media

G

"I walked in the Ped Er. The team was so awesome. They went out of their way to make my babies feel special. Short wait, Nurse, Dr., discharge nurse. I will be returning if I need too. Thanks to the awesome team members!!"

— D.M.

f

"I have a chronic bladder disease, I am a regular in this hospital and we travel 2-3 hours to get here. From pre-op to admitted to the floor, I have always been taken care of great. Most the nurses know me by now and I'm never a number. Every single person that works in this hospital is amazing..."

— M. B.

G

"I can't send enough love to denver health. Intensive care unit showed so much care to my Mother, let my family visit- took care of her with unbelievable detail. Over and above. This crew are some of my heroes and I just want the people looking at denver health reviews to please understand that these are dedicated professionals doing absolutely everything in their power to help you or your loved ones."

— M.D.

HELPING OTHERS

Denver Health Foundation has served as the fundraising arm for Denver Health since 1998. In 2017, the Foundation provided nearly \$9 million to help fund programs that touch the lives of our community members. Through generous donations, we continue to deliver high-quality care and vital resources to all Denver's citizens.

WORLD CLASS CARE
FOR A WORLD
CLASS CITY

DID YOU KNOW?

For nearly 160 years, Denver Health has been defined by its commitment to providing high-quality, innovative health care to all people.

Through an integrated system – which includes a 555-bed hospital, emergency care, a public health department and a network of family health centers – Denver Health strives to provide every patient with the right care, at the right time, in the right place.

DENVER HEALTH
— est. 1860 —
FOR LIFE'S JOURNEY

CARE FOR the whole community

Denver Health is a comprehensive, integrated organization providing level one care for all, regardless of ability to pay. Twenty-five percent of all Denver city residents, or some 220,000 individuals, receive their health care at Denver Health. Each year, we treat nearly twenty-five percent of Denver County's population, care for more than 60,000 children, and deliver one-third of all Denver babies.

SCHOOL-BASED HEALTH CENTERS

Students of all 207 Denver Public Schools and their siblings receive free care at any one of our 17 School-based Health Centers. Located within the school, students receive primary care, health education, behavioral health therapy and other services with minimal time away from class.

FAMILY HEALTH CENTERS

Our nine Family Health Centers stretch across the Denver region to serve as additional access points for primary care, dental services, pharmacy services, and much more. In 2017, our Family Health Centers received more than 566,000 patient visits.

PROMOTING PUBLIC HEALTH

Denver Public Health is a nationally recognized public health department that works with many partners to make Denver a healthy community for all people. As an example, Denver Public Health's Center for Positive Health cares for patients living with HIV. In 2017, nearly 90 percent of patients seen in the clinic were on effective treatment for HIV, and there have been no cases of mother-to-child HIV transmission in the last 18 years.

HEALTH CARE EQUALITY

Denver Health has been recognized by the Human Rights Campaign Foundation for five consecutive years as a leader in open and affirming LGBT health care. Our LGBT Center of Excellence aims to be the source of health care for the LGBT community.

UNCOMPENSATED CARE

Denver Health is committed to care for all – even for those who cannot afford it. Of all Denver-area hospitals, Denver Health ranks No. 1 in amount provided in uncompensated care – the total cost a hospital spends without payment from a patient or insurer. In 2017, Denver Health paid out \$230 million in un-reimbursed care.

LEADERS in Emergency Services

98%
TRAUMA
SURVIVAL
RATE

Denver Health is a national leader in emergency and trauma care.

Our Level I Rocky Mountain Regional Trauma Center treats the most critically injured patients with a 98 percent trauma survival rate – one of the best in the country.

117K+
EMERGENCY
CALLS

The Denver Health Paramedic Division operates Denver's 911 Emergency Medical Response System – one of the busiest in the region.

In 2017, we handled more than 117,000 emergency calls and transported more than 77,000 patients to area hospitals.

1,200+
OFFICERS WITH
TOURNQUET
TRAINING

Our prestigious EMS Education Department trains paramedics, EMTs and first responders.

Since 2012, we have provided more than 1,200 police officers with tourniquet training and as a result, nine officers' lives have been saved.

UNIQUE Offerings

THE ACUTE CENTER FOR EATING DISORDERS

The ACUTE Center for Eating Disorders is the only specialized medical stabilization program in the nation with the resources, the environment and the experience to treat patients with the most life-threatening eating disorders. This national center of excellence has been credited with saving more than 1,000 lives and is a top-ranked facility for treatment.

ROCKY MOUNTAIN POISON AND DRUG CENTER

In case of poisoning or chemical exposures, you can rely on Rocky Mountain Poison and Drug Center, which handled more than 161,000 calls relating to poisoning emergencies in 2017. Our health care professionals also provide clear information for both providers and patients on the safe use of medical devices and pharmaceutical drugs.

DENVER HEALTH MEDICAL PLAN

Since its creation in 1997, Denver Health Medical Plan, a nonprofit health insurance plan, actively involves members in their health care by promoting wellness and disease prevention, while providing access to health services. The Plan has increased in enrollment during the past five years by nearly 40,000 members.

CONVENIENT OPTIONS FOR CARE

NURSELINE

Denver Health's NurseLine is staffed by trained nurses 24 hours a day, seven days a week to answer your medical questions and fill certain prescriptions. NurseLine staff take more than 200,000 calls every year.

MYCHART

To ensure simple access to health records, we now offer MyChart. Patients can message their provider, schedule an appointment, request prescription refills, and more – all from a smartphone or computer.
