The Mobile Health Center is open & providing COVID-19 testing by appointment & with an order from a Denver Health provider.

If you meet symptom criteria, the provider will order a test & clinic staff will schedule your appointment at the curbside testing site most convenient to you, including the Mobile Health Center (MHC).

\*Walk-in COVID-19 testing is not available at any Denver Health locations at this time, but we are working to be able to offer this on our MHC in December. For more information on COVID-19 testing, call the Colorado Helpline at (303)389-1687.
