

GENERAL PRACTICE RESIDENCY PROGRAM

DENVER HEALTH MEDICAL CENTER DENVER, COLORADO

This program is fully accredited and designed to comply with the requirements of the Commission on Dental Accreditation (CODA). Applications must be submitted by mid-October to be eligible for appointment on July 1st the following year.

Description of Hospital Denver Health Medical Center is a not-for-profit, teaching and academic hospital accredited by The Joint Commission. Denver Health is Colorado's primary safety net institution and provides full-service health care to the uninsured, underinsured and undocumented citizens. Denver Health provides 40 percent more indigent care than any other health care facility in the Denver Metropolitan area. It is a 525-bed medical center featuring:

- Level 1 Trauma Center
- Inpatient and Outpatient Clinics:
 - 5 Dental Clinics
 - 54 Subspecialty Clinics
 - 2 Urgent Care centers
 - 19 School Based Health Care Centers
 - Rocky Mountain Poison and Drug Center
 - Comprehensive Patient Care Services
 - Oral Maxillofacial Surgery
 - Oral Maxillofacial Trauma
 - Cleft and Craniofacial Surgery
 - Corrective Jaw Surgery
 - Dental Implants
 - Wisdom Teeth Removal
 - Family Internal Medicine
 - Adult Internal Medicine
 - Women's Care
 - Pediatric Care
 - Foster Care Programs
 - Home Visit Programs
 - Refugee Health Care
 - Vision and Eye Care
 - Nurse Line
 - Pediatric Emergency and Urgent Care
 - Psychiatric Emergency Services
 - LGBT Health Services
 - Resources and Education
 - Mental Health and Addiction Services
 - Prescription Refill and Pharmacy Services

Denver Health Medical Center's dental programs treat a growing, unique population of more than **22,000** patients. The dental patient population treated at our facility has significant needs, with poorer health and more extensive dental pathology than the general population. Our patients present with a complex array of medical, psychological, economic, physical, and social problems that complicate their dental treatment. We enjoy the support and services of a dental staff with extensive education, training and experience in the full spectrum of dental care and thus provide outstanding, comprehensive dental care to the citizens of Denver and Denver County. In addition to the treatment of eligible patients, the dental service receives approximately **2,049** consult requests per year for dental input and treatment of urgent and emergent adjunctive dental needs.

Resident Eligibility

Graduation from an accredited American Dental Association or Canadian Dental Association dental school, and an expressed desire on the part of the applicant to complete a one-year general practice residency.

Application

The PASS Application is used. Applications must be received by the residency Program Director by mid-October to be considered for acceptance the following year on July 1st. Seven residents are selected each year through the MATCH Program.

Appointment

Appointments are made solely upon merit. No discrimination shall be made because of race, age, color, creed, national origin, sex, political affiliations or sexual orientation.

Period of Training

The General Practice Residency at Denver Health Medical Center is a comprehensive one-year program encompassing both clinical and didactic training. A certificate is awarded to each resident at the completion of the program.

Teaching and Supervisory

Staff General Practice Residents are closely supervised by the Director of the General Practice Residency Program and other staff.

Scope of Training: Didactic and Clinical Program Plan

Didactic Program

The didactic program utilizes clinical care conferences and journal clubs to provide resident education in the following dentistry areas of advanced complexity beyond the pre-doctoral training:

- Periodontics
- Endodontics
- Oral Surgery
- Pediatric Dentistry
- Physical Evaluation
- Medical risk Assessment
- Medically Compromised Patients
- Medical Emergencies
- Practice management

Clinical Program

The clinical program provides experience and training in two 2-week off service rotations (anesthesiology and the emergency department) and in two Denver Health Dental Clinics (Webb and Eastside) for general practice dentistry; specifically:

- Periodontics
- Oral and Maxillofacial Surgery
- Implant Dentistry (Diagnosis and Treatment Planning)
- Restorative Dentistry
- Endodontics
- Pediatric Dentistry
- Inpatient Consultations
- Operating Room Dentistry
- Emergency Dental and Medical Care

GOALS AND OBJECTIVES FOR DENVER HEALTH GENERAL PRACTICE RESIDENCY

Overall Program Goals and Objectives

General Dentistry
