

July 15, 2025

Ms. Nancy Dolson  
Colorado Department of Health Care Policy and Financing  
303 E. 17<sup>th</sup> Avenue  
Denver, CO 80203

Dear Ms. Dolson,

Please see the enclosed Hospital Community Benefit Accountability Report from Denver Health and Hospital Authority. We are happy to discuss and address any feedback or questions from the Department.

Thank you,

Lorena Zimmer  
Chief Impact Officer

# Denver Health and Hospital Authority

## 2025 Hospital Community Benefit Accountability Annual Report

---

# Executive Summary

Since its founding in 1860, Denver Health has been committed to the health and well-being of the Denver community, consistently responding to the city's most pressing health needs. In compliance with House Bill 19-1320, we are required to complete a community health needs assessment every three years along with an annual community benefit implementation plan. Our Community Health Needs Assessment (CHNA), conducted in 2023, has established a framework for the ongoing reporting of our community benefits and targeted actions. This report documents Denver Health's activities related to these requirements, including our programmatic and financial contributions in 2024, a summary of our 2025 annual public meeting, our 2024-2026 implementation plan, and our 2023 CHNA. The completion of this work highlights Denver Health's commitment to our vision to be the most trusted health care provider in Colorado.

## Initiative Reporting

### 2023 CHNA and 2024-2026 Implementation Plan

Denver Health's 2024-2026 implementation plan priorities were identified in the 2023 CHNA where quantitative data and valuable community input identified three key priorities:

- Access to Care
- Behavioral Health (Mental Health and Substance Use)
- Housing and Homelessness

The current report documents our annual progress in executing our 2024-2026 implementation plan, as well as our 2023 CHNA.

## Financial Reporting

- **2024: \$ 176,290,023**

# Summary of Public Benefit

Denver Health has made substantial progress in each of our three community priorities: Access to Care, Behavioral Health (Mental Health & Substance Use), and Housing and Homelessness. The progress made for each initiative is described in a brief narrative below along with additional services where Denver Health is proud to go above and beyond.

In 2024, Denver Health provided more than \$145 Million in uncompensated care, ensuring patients could receive services regardless of their insurance or ability to pay. Virtual care saw a significant increase with more than 284,000 visits delivered across both primary and specialty care. To further remove barriers, Denver Health provided over 18,000 individual transportation tickets, and over 3,000 Lyft rides were coordinated for patients needing support getting to their appointments. Access also expanded through language services, with more than 827,000 non-English-preferred visits, and the training of 932 residents and fellows, with a focus on culturally responsive care. Additional initiatives include access to care through our 19 school-based health centers, mobile health units, health education classes, Family Connects, and the NurseLine.

Denver Health has also made significant strides in improving behavioral health and housing support. Programs like our Center for Addiction Medicine (CAM), At-Risk Intervention and Monitoring Program (AIM), and our Integrated Behavioral Health services reached thousands of patients through innovative models, peer support programs, and trauma-informed interventions. Efforts to connect patients to housing include bridge housing, recuperative care beds, and partnerships that link patients to permanent housing. Through research, training, and systems-level advocacy, Denver Health continues to integrate care where people live, work, and recover – prioritizing the whole-person needs of Denver’s most vulnerable communities.

## Priority Area: Access to Care

**Goal:** Ensure every Denver resident has equitable access to timely, affordable, and culturally responsive health care

Strategy	Activities	2024 Impact
Provide patients with access to care regardless of ability to pay	Payment of uncompensated care	\$145,460,206 spent for uninsured, Medicaid, and Medicare services in 2024; this is a 3.85% increase from 2023
Provide e-consults for specialty care	Various Denver Health specialty providers conduct e-consults to help reduce appointment demand	6,422 e-consults provided in 2024; this is a .68% decrease from 2023 and likely due to a loss in dermatology appointments
Provide access to virtual care	Provide virtual primary and specialty care services	278,484 virtual visits provided in 2024; this is a 592% increase from 2023
Transportation to services	Obtain and distribute transportation vouchers, coordinate Medicaid transport, and arrange ride share for patients in need	18,440 transportation trips provided in 2024; this is a 6.9% increase from 2023  Denver Health Foundation sponsored Lyft program for underinsured patients. 3,021 rides were provided in 2024, this is an 81% increase from 2023
Workforce and Organizational Development	Enhance recruitment, training to serve the ethnically/racially diverse population of Denver	Out of our 8,396 total employee population, our staff consists of widely diverse individuals with 0.8% American Indian or Alaska Native, 5.2% Asian, 8% Black or African American, 17.3% Hispanic or Latino, 0.2% Native Hawaiian or Other Pacific Islander, 3.8%

		Two or more races, 55.4% White, and 9.3% preferring not to answer
Health professionals' education	A commitment to training the next generation of health care professionals	14 Medical Assistants trained and graduated in 2024  932 trainees in Residencies and Fellowships including EM, Toxicology, EMS, Podiatry, Dental, Pediatric Dental, and CU Physicians
Metro Denver Partnership for Health (MDPH) participation	Ongoing seven-county Denver Metro Collaboration including local public health agencies (LPHAs), health systems, and regional accountable entities to address common priorities, including reducing behavioral health stigma, and enhancing community capacity and engagement	17 community organizations were recruited and equipped to promote anti-stigma mental health messages within their communities  103,292 individuals were reached via mental health ambassadors promoting anti-stigma messaging in the Metro Denver region (July 2023-June 2024)  25 organizations, including MDPH member organizations and local community-based organizations convened over three forums to promote enhanced community engagement strategies
Language services	Improved language interpretation assistance and documents for patients that require language assistance	Language interpreters were present for 705,870 visits for patients that have a documented need in 2024; this is a 17.8% increase from 2023  Denver Health has 305 employees who are qualified bilingual staff.
Policy and Advocacy for legislation that benefits the community	Advocated for bills across the spectrum of care, from prevention to funding of research and even bills related to improving education and housing	181 bills advocated on by Denver Health  10 significant bills related to ensuring access to quality health care for all were passed in 2024

#### Other Initiatives:

Denver Health has a long history of spreading accessible care to Denver residents, making newer, easier ways and places available, particularly for low-income residents across the city. These are listed here in “Other” because they are partially able to be funded through a public payer, such as Medicaid or Medicare, but not many other hospitals provide this sort of access.

- Mobile Health Units – Denver Health has 4 mobile health units that operate across the city at different locations bringing primary care, mammography, and other services to sites, such as partner non-profits that community members might trust more than going to a clinic. They saw a total of 7,952 mobile visits in 2024, which is a 3145.7% increase from their establishment in 2020.
- SBHC – Denver Health operates 19 school-based health centers providing care to DPS students and their siblings, regardless of ability to pay.
- Special Population Clinics – Denver Health goes above and beyond in dedicated care services to many special populations. The Rose Andom Clinic should be highlighted. The Rose Andom clinic allows Denver Health to offer primary and women’s care, as well as well-child visits on-site at the center where clients are already being connected to resources, particularly for domestic violence victims and their families.
- NurseLine – With funding from the City, Denver Health provides a 24-hour NurseLine to all residents of the city and county of Denver. This team can provide care advice and help connect patients to appropriate care.

**Priority Area:** Behavioral Health (Mental Health and Substance Use)

**Goal:** Expand and normalize access to mental health and substance use support in both clinical and community settings

Strategy	Activities	2024 Impact
Integrated Behavioral Health	Social workers are integrated into our community and school-based primary care facilities	56,591 visits were provided in 2024
Substance Use Navigation (SUN Program)	Employ substance use navigators to support community members in their recovery from substance use disorder	Responded to 1,831 patients with behavioral health needs in 2024. This includes referrals, patient engagements in care, and patient follow-ups
At-Risk Intervention and Mentoring Program (AIM)	Collaborate with community partners to access and mentor youth and adults involved with violence at a time when there is heightened readiness to change, i.e., when patients are in the Emergency Department with violence-related injuries	257 bedside interventions provided in 2024; this is a 14.7% increase from 2023  55 trauma-informed care trainings provided in 2024; this is a 25% increase from 2023  37 crisis interventions provided in 2024; this is a 2.7% increase from 2023
Center for Addiction Medicine Academy (CAM)	Technical assistance and support to help implement comprehensive, trauma-informed treatment for substance use disorders (SUD)	389 standardized courses provided in 2024; this is a 201% increase from 2023  2,193 training events offered in 2024; this is a 313% increase from 2023  Trauma Responsive Care Standardized Workshop offered throughout 2024
CAM Technical Resource and Information Line (TRAIL)	Provide a line for community members/family with substance misuse that are ready to engage in treatment and an e-consult service for Denver Health healthcare professionals who need help screening and linking their patients with SUD to care	728 total calls answered in 2024 from providers, patients, friends and family, and other; this is a 77% increase from 2023  Hospital Partners in 2024 that received Substance Treatment Line business cards and/or posters: Porter Hospital, Presbyterian/St. Luke's Medical Center, Rose Medical Center, Southmoor EUC (Emergency Urgent Care), renamed to: Advent Health ER & Urgent Care Southmoor, UCHHealth Emergency at Green Valley Ranch Medical Center
Access Transformative Outreach Program (ATOP)	Provide intensive case management with a multidisciplinary team for Colorado Access members with severe substance use disorders	57 patients supported
Transforming Health by Reducing Inequities for the Vulnerable (THRIVE)	Inter-agency collaboration and coordination to address social needs of at-risk youth, people who are justice involved and/or experiencing homelessness	800 staff trained in care coordination  12,000 patients supported  29 providers providing support across six clinical teams

Integrate Community Voice and Peer Support Through CAM	Focus groups with community advisory boards for CAM programming; bolster peer support	<p>12 CAM Community Advisory Meetings held in 2024; this is an 8.3% increase from 2023</p> <p>342 individuals with lived experiences who participated in the Community Advisory Meetings in 2024; this is a 4.6% increase from 2023</p>
Family Oriented Resilience Growth and Empowerment (FORGE Program)	Train future clinicians in trauma-informed non-stigmatizing care, cultivate strong community relationships to reduce stigma and other barriers to care, and advance health system research with these historically marginalized families	<p>All our FORGE program providers are trained in trauma-informed non-stigmatizing care</p> <p>Completed 2,516 visits in 2024; this is a 5% increase from 2023</p> <p>Provided 24 educational presentations to internal staff and 14 educational presentations to community</p>
CAM Continuum of Care Evaluation	Measure the effectiveness of health system protocols and interventions to engage and retain patients in SUD treatment	<p>Linkage from Treatment on Demand (ED) and Addiction Consult Liaison (Inpatient) Social Work Teams: 405 / 856 (47%) of social work referrals from the ED and Inpatient areas linked to outpatient care within 30 days of discharge</p> <p>Our hub and spoke model of care reached over 20,000 individuals with substance treatment services across our system for upwards of 70,000 substance-related visits in 2024</p> <p>More than 50% of persons treated were between 25-44 years old, 53% were persons of color, 58% were insured with Medicaid, and 25% experienced homelessness</p>
Beginning Early and Assertive Treatment for Methamphetamine Use Disorder (BEAT Meth)	Develop and evaluate a comprehensive linkage and engagement and retention in treatment program for patients with methamphetamine use disorder	<p>Of 622 potentially eligible patients, 192 enrolled in the study</p> <p>85% were not stably housed, and half did not have access to a working phone</p> <p>54% reported ever participating in a program to treat a substance use disorder. Intervention participants received an average of 3 care navigation sessions, with 52% receiving at least one session</p> <p>Common interventions included discussion of treatment options with 71% of participants, housing assistance (30%), medical care coordination (29%); 31 received study phones</p> <p>Preliminary analysis suggest intervention participants were twice as likely to link to treatment at 90 days</p>
Transforming Health by Reducing Inequities for the Vulnerable - Jail to Community Overdose Intervention (THRIVE-JOI)	Care navigation and peer recovery specialists link people who have been incarcerated and have Substance Use Disorders (SUD) to medical, SUD, and	From October 2024 (inception of the program) to December 2024, 45 patients were linked to behavioral care and social supports

	other BH care and social supports	
Utilizing Peers for Linkage, Innovation, and to Foster Thriving (UPLIFT), a Peer Support Hub and Model of Care	Establishing a peer support hub and supporting non-clinical approaches to enhance recovery	328 patients supported in 2024; this is a 786% increase from 2023  1,714 encounters documented in 2024; this is a 401% increase from 2023
Screening, Brief Intervention and Referral to Treatment (SBIRT)	Provide screening for patients in the Emergency Room	64,112 patients screened in the Emergency Room in 2024  1,101 received a brief intervention on the SBIRT Assist
Increase Access to Methadone Through a Mobile Unit Available in More Locations	Locate MoMAT unit in at least 2 locations	5,663 doses provided in 2024

### Other Initiatives:

Behavioral health encompasses mental health and substance use treatment work. There are many places in our community where this has come up as a priority. Denver Health provides therapy and programs to patients of all ages who are struggling with mental health issues in both an inpatient and outpatient setting, but programs also exist to benefit persons needing interventions outside of the clinic setting.

- RESTORE – Resiliency, and Equity Through Support and Training for Organizational Renewal (RESTORE) Promotes and sustain the mental well-being of the workforce; support individual, collective and organizational resilience through timely and confidential peer-delivered emotional support and psychological first aid as well as deliver trauma and resilience-informed education and training. Since their launch in 2020 our RESTORE team has provided 500,000 moments of connections with staff with more than 16,500 peer support encounters in which our trained peer responders supported team members using psychological first aid and providing emotional support.
- Zero Suicide - This initiative promotes best practices in suicide prevention across Denver Health. The Zero Suicide team has trained over 600 DH staff and received national recognition for their work in developing a public health suicide surveillance system.
- Substance Treatment Line – Provides compassionate support and tailored solutions to people with substance use disorders as well as their loved ones. 303-952-8053
- STAR – Since its launch in 2020, our STAR program started as a single van with two staff supports per shift. It now boasts eight vehicles, plus a rotating staff of 16 Denver Health Paramedics and 16 clinicians from WellPower. From June 1, 2020 – June 3, 2025 their team has responded to 25,144 incidents.
- Research on Healthcare Connection with Behavioral Health patients – Denver Health participates in behavioral health research work to better engage patients to increase behavioral health care follow-up post discharge.

## Priority Area: Housing and Homelessness

**Goal:** Address the intersection of housing insecurity and health by embedding services within housing solutions

Strategy	Activities	2024 Impact
Provide transitional housing to Denver Health patients	Lease 14 units at 655 Broadway to provide short-term bridge housing	28 patients supported with short-term bridge housing in 2024  Of that, 22 patients were connected to permanent housing via voucher, family reunification, and higher level of care
Maintain recuperative care lease to support unhoused patients discharged from Denver Health	Lease 20 recuperative care beds each month	289 patients discharged to recuperative care beds in 2024; this is a 58.7% increase from 2023
Advocate for additional housing options for unhoused people who access Denver Health	Meeting with city and state partners to identify additional opportunities to implement door-to-door transitions from Denver Health to housing	12 patients connected to housing through warm handoff to Denver Housing to Health/SIPPRA Program in 2024; this is a 9% increase from 2023  45 people supported through DOH vouchers since inception of the program in 2022
Advance research on homelessness and health care and the impact of housing interventions	Point in time counts of unhoused people in the hospital; participate in evaluations of hospital-housing interventions. Use current Denver Health Homeless registry to conduct necessary research that advances care.	2 Publications in 2024  3 Presentations provided  ~184 students have participated in the CU School of Medicine Housing Insecurity Curriculum  ~50 students have participated in the CU School of Medicine Longitudinal Integrated Curriculum in Healthcare for the Homeless

### Other Initiatives:

Although most people do not associate housing and homelessness as a priority for a hospital, Denver Health recognizes the community's input on prioritizing this area of work. Denver Health saw more than 16,000 patients identified as experiencing homelessness in 2024. As an organization committed to helping our patients improve their health outcomes, for this population it is clear, we need appropriate interventions both clinically and socially to assure that patients experiencing homelessness can continue healing outside the hospital.

- Advocacy – Denver Health took an active role in securing affordable housing for our patient population. We supported or monitored 4 bills related to housing.
- HMIS – Denver Health has recently begun connecting with the Homeless Management Information System to understand the resources available to our patients.
- HOPE (Housing Outreach, Partnerships and Engagement) – A team of professionals passionate about patients experiencing homelessness has come together to build on our partnerships and lessons learned to address system gaps and put patients on the most appropriate and effective pathway towards housing and health.

## List of Public Meeting Attendees and Organizations Represented

This year we used Google Forms and QR codes to manage registrations, offering Spanish interpretation at both scheduled meetings. We recorded the following 23 participants from organizations outside Denver Health and Hospital Authority. The participants included representatives of community-based organizations, HCPF, Office of Denver City Council, and other health care organizations. We used a PowerPoint presentation to guide our discussion following the outline provided below.

First Name	Last Name	Organization
<b>12-1pm</b>		
Alliss	Hardy	Families Forward Resource Center
Angelina	Gurule	Denver City Council
April	Valdez Villa	Denver Health
Ashlee	Grace	HCPF
Ashleigh	Philips	CommonSpirit Health
Bryce	Rafferty	Colorado Cross-Disability Coalition
Connie	Givens	Unknown
David	Rangel	Shield Healthcare
Deirdre	Johnson	Center for African American Health
Elise	Waln	Boulder County Public Health
Erik	Ortiz	Denver Department of Public Health & Environment
Gabe	Martinez	Office of U.S. Senator Michael Bennet
Gracie	Davis	Community College of Denver
Julie	Knoeckel	Denver Health
Kevin C	Molloy	CommonSpirit St. Anthony North & Longmont United Hospitals
Laura	Don	Unknown
Nancy	Sharp	Denver Health
Patricia	Galetto	LPHI
Peggy	Jarrett	Intermountain Health
Sayuri	T	Unknown

<b>Shawn</b>	<b>Taylor</b>	<b>Families Forward Resource Center</b>
<b>Sophia</b>	<b>Hennessy</b>	<b>Colorado Consumer Health Initiative</b>
<b>Stephanie</b>	<b>Bean</b>	<b>Community College of Denver</b>

# Summary of 2024 Public Meeting Discussion

---

Denver Health held two public meetings on June 16, 2025, from 12-1pm and 6-7pm to review our accomplishments and gather community feedback. These forums were promoted through emails to approximately 200 individuals, advertisements in multiple newspapers, and online announcements, resulting in the participation of 23 individuals outside of Denver Health and Hospital Authority employees. Readers interested in how Denver Health is incorporating feedback from this annual public meeting can find that information in the related Excel reporting template provided by the state. We used a PowerPoint presentation to guide our discussion and offered the meeting both virtually and in person. To facilitate a discussion in the webinar format, we prompted participants' feedback with questions, requesting responses both in the chat and offered those to unmute and share their responses. The questions we used to prompt community conversation were:

- What feedback do you have for Denver Health regarding their community benefit work 2021-2023?
- What input do you have about the community benefit priorities for 2024-2026?
- What feedback do you have for Denver Health related to its Hospital Transformation Program?
- With lack of housing being significantly related to readmissions, what additional community partners are there that could help address this need?
- Are there any other community partners Denver Health should access to support inpatient transitions?

The meeting began with a welcome and introductions of presenters, followed by an overview of Denver Health's mission, scope of services, and current strategic priorities identified from the 2023 Community Health Needs Assessment. It provided a comprehensive picture of Denver Health's operations, highlighting that the institution is more than just a hospital. Attendees raised thoughtful questions about future funding uncertainties and shared opportunities for new partnerships. Suggestions and questions included:

- One participant shared a community partner, Access Gallery, that we had not mentioned and believes they would be a great partner for Denver Health. Contact was provided.
- One participant shared a community partner, DOJ Settlement Agreement, that had not been mentioned and believes they would be great for Denver Health to partner with. They provide resources and initiatives for people with physical disabilities. While not yet active, they are moving towards approval. Contact information was provided.
- One participant had the question, "What are we projecting the next fiscal year to look like given the uncertainty of the government?"
  - a. Answer: At the federal level we need to figure out when the Big Beautiful Bill will happen. These changes will likely happen in early July, so we won't be able to forecast 2026 just yet. We have heard some things that they are looking to cut. If Medicaid cuts go from 90 days to 30 days, we will need to see the impacts on our Medicaid enrollment and having appropriate staff. For those trying to access healthcare outside of the regular Medicaid pool you need to think of the tax incentives that will impact our patients. Our DHMP does have some participants on the exchange.
- One participant had the question, "Why do you think there is a gap between the 2023-2024 uncompensated care? I.e. Why is there greater uncompensated care?"
  - a. Answer: With uncompensated care we are looking at primarily uninsured and underinsured patients, and so even for underinsured patients that have Medicaid, we get paid for those services but what we get paid doesn't cover the cost and so then our Medicaid rate increases from year to year. They are typically low, and our expenses are increasing at a much faster rate than that and so our uncompensated year trend is getting bigger every year.

- b. Answer: The number of uninsured visits increased by about 30,000 from 2022 to 2023 and from 2023 to 2024. So, we see a lot of patients that have no payment source behind them. As Denver Health, if they come through the emergency room we will accept and treat them. For Denver residents, because of our mission, we make sure they also receive follow up care.
  - c. Answer: We lost people on Medicaid and increased uninsured and that happened between 2023 and 2024
- One participant had the question, “For patients, are they offered financial assistance? Do they mostly have to ask for it? And lastly, how does that process look like?”
  - d. Answer: Yes, every patient we are required to offer financial assistance. We have enrollment services staff at many of our locations to do on site financial analysis to see if patients are eligible. We proactively ask patients if they would like to be seen but if their status changes after they leave, we offer financial assistance.
  - e. Answer: We can also offer to enroll them in Denver Health’s sliding fee scale program.

## Conclusion

- Denver Health is proud to present this report, that showcases our ongoing commitment to community-driven care, transparency, and collaboration. By aligning strategic initiatives with identified community needs, Denver Health continues to evolve as a responsive and trusted health system. The feedback and connections shared throughout the report will help guide future partnerships and programming, ensuring that the voices of patients, partners, and stakeholders remain central to the organization’s mission.

Dear Denver Community,

Since 1860, Denver Health has provided health and healing to the Denver community, consistently identifying and addressing the city's most pressing health needs. When we published our first Community Health Needs Assessment (CHNA) in 2020, we were in the middle of a pandemic and responding to calls for racial justice in the wake of protests related to George Floyd's murder. As a result of the COVID-19 crisis and deeper reckoning with inequality, our society is more aware of how social and political contexts shape health. The work to address these challenges has developed stronger and deeper community connections. We are most proud to see how much we can accomplish when we work together.

With all this shared history, Denver Health is especially grateful for the input we received from community members and local organizations for the 2023 Denver Health CHNA. Through this assessment process, we identified three priorities that we know will resonate with our readers because they address our community needs:

1. Access to care
2. Behavioral health (mental health and substance use)
3. Housing and homelessness

These priorities will guide our Community Benefit Implementation Plan's objectives, projects, metrics and partners. We are grateful for the existing and new partnerships that will be formed to make the difference we are committed to having in these areas. We know we are in this together and appreciate all of your engagement.

Sincerely,

Donna Lynne, DrPH  
Chief Executive Officer

## Executive Summary

### Purpose

As part of the Affordable Care Act (ACA) signed in 2010, non-profit hospitals in the United States are required to conduct Community Health Needs Assessments (CHNA) every three years and then create implementation plans to address prioritized health needs.<sup>1</sup> Because Denver Health and Hospital

Authority (Denver Health; DH) is a governmental entity, DH was not subject to this ACA requirement. However, in 2019 Colorado passed House Bill 1320 that aimed to increase community benefit transparency and accountability among Colorado hospitals.<sup>2,3</sup> This legislation expanded the

requirements of a CHNA and implementation plan every three years to include Denver Health Medical Center (DH) and the University of Colorado Hospital, in addition to non-profit hospitals. Under this legislation, hospitals are also required to provide annual financial and activity reports and hold an annual public meeting to gain input on implementation plan activities.

In accordance with House Bill 1320, Denver Health produced its first CHNA in 2020 and has been reporting progress on addressing prioritized needs annually. In 2020, three priority areas were identified in DH's CHNA: 1) enhancing behavioral health and substance use services, 2) improving child health and well-being, and 3) enhancing economic opportunity in Denver through DH's Anchor Institution initiative. Since that time, the needs of our communities have been greatly impacted by the COVID-19 pandemic, which has included major shifts in our social structure, increased recognition of the role of structural racism and health disparities, and immense challenges to our mental well-being. This latest 2023 DH CHNA provides an updated portrait of community needs and will be used to organize and focus DH's community benefit efforts for the next three years (2024-2026).

## Methods

This CHNA is informed by both opinions and perspectives collected directly from individual community members and individuals who represent various Denver-area constituencies, and secondary data from local, state, and national sources. The internal Denver Health Community Benefit Advisory Council applied the Colorado Health Assessment and Planning System Prioritization Scoring Tool, considering factors of health condition burden, health disparities, organizational priorities, evidence-based strategies for addressing needs, and staff and financial resources, to identify the top three priorities for the current CHNA.

## Priority Health Needs

Community members independently identified the several health priorities. After review and scoring by the Denver Health Community Benefit Advisory Council and Approval by the Denver Health and Hospital Authority Board on September 21, 2023, the three priority areas of focus for the current CHNA are:

- Access to Care
- Behavioral Health (Mental Health and Substance Misuse)
- Housing and Homelessness

## Next Steps

Over the next six months the Denver Health Community Benefit Advisory Council will work with internal and community stakeholders to develop our Community Benefit Implementation Plan that will address these priority areas, including key metrics for measurement.

## **Introduction and Background of Denver Health**

Denver Health (DH) is a fully integrated academic safety-net health care system serving the city and county of Denver. DH is a Level-1 Trauma Center with a 525-bed hospital. It has 11 community-based Federally-Qualified Health Centers (FQHCs) in neighborhoods throughout Denver, 3 mobile units, 3 urgent care centers, 19 Denver School-Based Health clinics, LGBTQ+ Health Services, and a Center for Addiction Medicine with outpatient behavioral health services and an emergency and residential detoxification facility. In addition, DH provides care for persons in the Denver correctional and jail facilities. DH uses an integrated electronic health record (EHR), Epic, to support performance improvement for patient care as a Learning Health System. In addition, DH manages a health maintenance organization, the 911 medical response system for the City and County of Denver, the Rocky Mountain Poison and Drug Center, and a Public Health Institute.

The DH system is nationally recognized for its model of care delivery to underserved, indigent, and minority patients and for its growth and financial stability despite a patient population with low rates of health insurance. DH serves approximately 33% of Denver's adult and child residents and has a patient population that is approximately 50% Latino, 15% African American, and 30% white. In 2022 the system saw over 200,000 individuals in over 930,000 outpatient visits and 40,000 inpatient admissions. The payor mix in 2022 included 49.2% Medicaid, 20% Medicare, 7% Charity Care, 4% self-pay, and the remaining 19.8% from the Denver Health Medical Plan or private payor. 21% of Denver Health patients are uninsured compared to just 10% for other Colorado hospitals. DH has provided a total of \$466 million dollars in uncompensated care between 2017-2022.

DH's integrated system provides opportunities to influence community well-being coupled with community engagement, a core organizational competency as a Learning Health System. DH's commitment to community well-being is reinforced by its role as an Anchor Institution. This emerging identity is exemplified by partnership with community agencies and patients to address social determinants of health. As an Anchor Institution, DH works with a broad range of community partners: Denver Public Schools (DPS), Denver Housing Authority, Colorado Coalition for the Homeless, Mental Health Center of Denver, neighborhood associations, social service agencies, and community-based organizations that serve vulnerable populations. As a major area employer in Denver County: 40% of the full-time DH workforce is from racial/ethnic minority communities.

## DH Integrated System Components

### Community Served: City and County of Denver

EMERGENCY RESPONSE	TRAUMA CARE	INPATIENT CARE	OUTPATIENT CARE	RESEARCH & EDUCATION	PUBLIC HEALTH	DATA SYSTEMS	COMMUNITY PARTNERS
911 response, ambulance, paramedic detox services	urgent, emergency, trauma care	medical/surgical, intensive care, behavioral health, addiction services	primary, dental, specialty, behavioral health, addiction, correctional care	learning health system, academic medical center with university partnerships	health promotion, education, advocacy, surveillance, disaster health	Epic EHR, integrated community-health data, distributed data networks, claims data	community advisory panel, community engagement committee of the board of directors

### Population Profile

The current population in the City and County of Denver includes an estimated 711,463 individuals, representing an 18% increase (107,049 individuals) since 2010, and a slight decrease in population size over the past few years.<sup>4</sup>

#### US Census population estimates, City and County of Denver, 2010-2021.

Source: US Census 1- and 5-year estimates for the City and County of Denver. <https://data.census.gov/>

Individuals aged 25-34 (23.1%) and 35-44 (16.9%) years represent the largest proportions of the Denver population; 11.2% of the population is aged 65 years of age or older, and 20.6% are less than 20 years of age. The population is almost evenly divided between males (50.3%, n=358,282) and females (49.6%, n=353,181). In 2022, 7.6% of the Denver population identified as gay, lesbian, or bisexual.<sup>5</sup>

#### US Census population estimates for Denver City and County, 2021 by age category.

Source: US Census 2021 1-year population estimates, City and County of Denver. <https://data.census.gov/>

#### Race, Ethnicity, Language, and Country of Birth

Denver's population is made up of individuals belonging to a diverse number of racial and ethnic identities: over half of the population identifies as non-Hispanic (NH) White (53.6%; n=381,270), 29% identify as Hispanic or Latino (n=206,207), 8.3% identify as Black or African American (n=59,195), and 4.8% (n=34,009) identify as belonging to 2 or more different races. Within the Hispanic and Latino population (n=206,207), 21.9% (n=155,551) identify as Mexican, 0.6% identify as Puerto Rican (n=4,593), 0.3% identify as Cuban (n=2,353), and 6.1% identify as other Hispanic or Latino (n=43,710).

#### Racial and Ethnic Background of Denver Population, 2021

NH=non-Hispanic. Source: US Census 2021 1-year population estimates, City and County of Denver.

The majority (76.1%) of Denver residents aged 5 and over speak English only (n=511,315). The second most common language spoken is Spanish (n=113,941; 16.9%); an additional 2.8% (n=18,965) speak other Indo-European languages, 1.7% (n=11,355) Asian and Pacific Island languages, and 2.5% (n=16,726) speak other languages.

**Primary languages spoken by Denver residents, 2021.**

Source: US Census 2021 1-year population estimates, City and County of Denver, Language Spoken at Home.

Most of Denver residents were born in the United States (85.8%, n=610,343), though over half of USborn Denver residents were born in a state outside of Colorado (53.6%, n=326,900). Of US-born residents in Denver born outside of Colorado, 34.4% (n=112,492) were from the Midwest, 25.1% (n=82,079) were from the South, 24.0% (n=78,425) were from other Western states, and 16.5% (n=53,904) were from the Northeast. Of the 101,120 Denver residents born outside of the United States, 46,492 (45.9%) were naturalized US citizens, and 54,628 (54.0%) had not yet achieved citizenship. Of the non-US born Denver residents, 54.8% (n=55,433) were from Latin America, 38.2% (n=38,592) were from other countries in North America, 19.3% (n=19,560) were from Asia, 13.0% (n=13,186) were from Africa, 9.8% (n=9,869) were from Europe, and 0.6% (n=620) were from other countries in the Oceania region.

**Education, Employment, and Income**

Over half (53.5%) of Denver residents aged 25 or older (n=521,474) have at least some college (n=107,392, 20.6%) or a Bachelor's degree (n=171,505, 32.9%). Yet, 9.1% (n=47,535) have less than a high school degree and for 15.3% (n=79,700), a high school degree is the highest level of education. A quarter of Denver residents aged 16 or older (n=592,643) are currently unemployed (25.8% unemployed, n=152,982) and 74.2% (n=439,661) are currently employed either full- or part-time. An estimated 11.6% of Denver residents are living at or below the federal poverty level, slightly higher than the average for Colorado (9.6%) and lower than the national average (12.6%).

## CHNA Methods

### Primary Data Collection

Primary data collection was also conducted, providing community perspectives on top health concerns in the Denver community. Three different strategies were employed, including a publicly advertised meeting, a survey distributed to hundreds of community contacts and internal advisory board members, and through a facilitated conversation with members attending a monthly Denver Health Community Advisory Meeting (See Appendices A-C for more details). More specifically:

- Denver Health’s annual community benefit public meeting was advertised in three newspapers and distributed to nearly 200 community contacts in the community. Participants in that meeting were asked to identify the top health concerns of their community.
- Surveys for community and community organizational leaders and individual community members were distributed to Denver Health community contacts and to two different Denver Health community advisory groups, including Denver Health’s Patient, Family and Advisory Committee and the Office of Research Community Advisory Panel.
- A facilitated conversation, based on the above survey, was also conducted within the DH Center for Addiction Medicine Community Advisory Meeting.

### Secondary Data Collection

This report aimed to provide detailed sociodemographic and health statistics for the Denver County population. When possible, data for Denver County was presented in comparison to data for the state of Colorado and the United States.

Various national, state, and local resources were leveraged to summarize the most up to date data for key health indicators and domains, including:

- United States Census American Community Survey<sup>4</sup>
- Colorado Department of Public Health and Environment (CDPHE)<sup>5</sup>
- County Health Rankings & Roadmaps<sup>7</sup>
- Centers for Disease Control and Prevention (CDC) PLACES<sup>8</sup> - Centers for Disease Control and Prevention (CDC)<sup>9</sup>

### Identification and Prioritization of Denver Community Health Needs

Identification and prioritization of needs was conducted through a systematic process that considered primary and secondary data, and organizational expertise and review by a dedicated Denver Health Community Benefit Advisory Committee. The DH Committee Benefit Advisory Committee is made up of executive and clinical leaders across the Denver Health system, representing inpatient and ambulatory care, specialty care, government affairs, health equity, quality improvement, and research (Appendix D). The Committee is responsible for determining priority areas and developing a 3-year Community Benefit Implementation Plan and supporting annual reporting. The Implementation Plan will include process and outcome metrics. The Colorado Health Assessment and Planning System Prioritization Scoring Tool<sup>6</sup> was adapted to guide the Denver Health Community Benefit Advisory Committee prioritization of community health needs. The adapted tool involved scoring each health concern area on a scale of 1-3 (1 no, 2 somewhat, 3 yes) for each of the following criteria:

1. **Significance to public health:** whether the issue has a large health impact, and whether the burden in Denver is greater than state or national estimates
2. **Health disparities:** whether disparities exist by racial, ethnic, sexual orientation, gender, or other identities
3. **Evidence-based strategies available to impact the issue:** if there are local evidence-based strategies that have the ability to effectively impact the issue or concern
4. **Community support:** whether there is community support including political will to create change
5. **Capacity to address the issue:** whether the issue is aligned with core service areas or capacity, whether sufficient staff and expertise are available or obtainable
6. **Prior priority:** whether the issue was addressed in the previous Community Benefit Implementation Plan (Behavioral Health, Maternal/Child Health, Economic Opportunity)
7. **Funding:** whether there is sufficient funding or community partnerships to address the issue

## Results: Primary Data

A total of 31 community partner members and 36 individual members of the community provided input on identifying the most important health needs in Denver. Community partners included representatives from local and state government, community and service organizations, health and mental health services, advocacy groups, and the education sector. Individual community participants included both DH patients and persons from the larger Denver community and represented geographic areas across metro Denver. Comprehensive data on community forum and survey respondents and results are available in Appendices A-C.

The table below provides a summary of the different health priorities identified by the different primary data collection methods, showing housing, access to care and mental health as most consistently identified across the different data collection methods.

	Public Meeting	Community Survey CBO	Community Survey Individual	Facilitated Survey CAM CAM
Housing	x	x	x	x
Access to care	x	x	x	
Community Connectedness	x	x		
Social support	x			
Mental Health		x	x	x

SUD		x		x
Healthcare Costs/Insurance			x	
Diabetes			x	

The survey and focus group participants were also asked what areas they thought Denver Health could impact and the following rankings resulted (1 = highest and 5 = lowest priority). All groups thought Denver Health could impact access to care, and different groups thought DH could impact each of the different areas to varying degrees.

	Community Survey – CBO	Community Survey - Individual	Facilitated Survey- CAM CAM
Housing			1
Access to care	1	1	2
Community Connectedness	4	2	
Social support			
Mental Health	2		3
SUD	5		
Healthcare Costs/Insurance	3	5	
Diabetes		3	
Adolescent Health		4	

## Results: Secondary Data

### Summary of 2023 Community Priorities Ascertained through Secondary Data Collection

Data comparing health behaviors and health conditions among residents in Denver County to other counties in Colorado<sup>7</sup> and the United States<sup>7,8</sup> were used to identify areas with greatest opportunity for improvement. Specific metrics that were of greater concern (i.e., greater burden or lower positive health behavior) in Denver compared to other Colorado counties and/or national statistics were identified, and included:

- Access to Care/Health Insurance<sup>7,8</sup>
- Air Pollution<sup>7</sup>
- Diabetes<sup>7</sup>
- Firearm Fatalities, Suicide, Homicides<sup>7</sup>
- Food Insecurity<sup>7</sup>
- Housing Instability/Homelessness<sup>7</sup>
- Low Birthweight Babies<sup>7</sup>
- Mental Health (poor mental health days)<sup>7,8</sup> (depression)<sup>8</sup>
- Preventive Care<sup>8</sup>
- Sexually Transmitted Infections, including HIV prevalence<sup>7</sup>
- Substance Misuse (smoking, drinking)<sup>4,5</sup> (drug overdose deaths)<sup>7</sup> - Teen Births<sup>7</sup>

### Overall Denver County Health Rankings

County Health Rankings for the United States consider health outcomes of longevity and quality of life, health behaviors, clinical care, social and economic factors, and physical environment.<sup>7</sup> In 2022, Denver County ranked 23<sup>rd</sup> highest in terms of overall health among the 59 counties in Colorado.

Compared to the United States, Denver County residents rate their overall and physical health more favorably but have a higher proportion of residents experiencing  $\geq 14$  of the previous 30 days where their mental health status was not good.<sup>8</sup>

**Prevalence (%) of population reporting unfavorable general, mental, or physical health, United States and Denver County, 2021.**

Source: Centers for Disease Control and Prevention (CDC). PLACES: Local Data for Better Health. 2021. <https://places.cdc.gov/>

## Vital Statistics – Births and Deaths

In 2022, there were 5,279 deaths among Denver residents (mortality rate 703.6/100,000 persons), representing 11.3% of all deaths in Colorado.<sup>5</sup> The mortality rate in Denver is higher than the overall state mortality rate (672.7/100,000). There were also 8,042 live births during the same year, representing 12.9% of the births in the state.

## Leading Causes of Death

Cardiovascular heart disease (129.9/100,000 persons) and cancer (122.5/100,000 persons) are the top 2 leading causes of death in Denver County, followed by unintentional injuries (60.4/100,000 persons), chronic lower respiratory diseases (40.1/100,000) and cerebrovascular diseases/stroke (33.5/100,000).<sup>2</sup> **Leading Causes of Death, Denver County, 2022. Numbers represent rates per 100,000 population.**

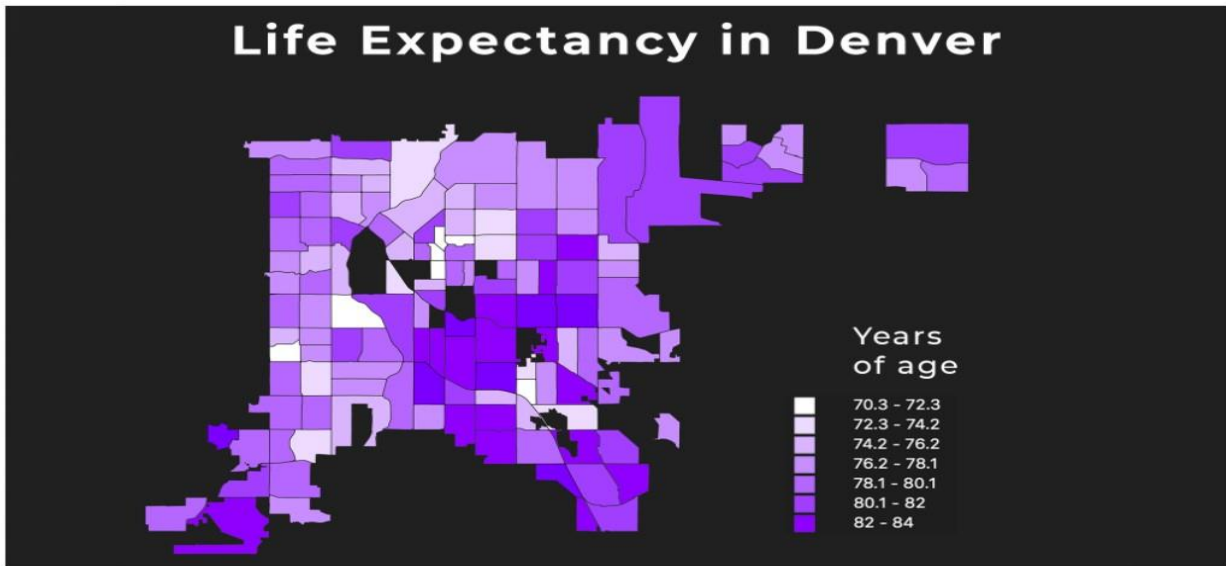

Source: Colorado Public Health and Environment Mortality Data. Denver County, 2022. [CoHID | Department of Public Health & Environment \(colorado.gov\)](https://cohid.colorado.gov/)

## Life Expectancy

Overall, Colorado has the 12<sup>th</sup> longest life expectancy of the United States, estimated at 78.3 years in 2020.<sup>9</sup> Life expectancy in Denver County, Colorado differs by 13 years depending on the neighborhood (range 72.8-85.9).<sup>5</sup> Geographical variability in the historical and current systemic racism, built environment, access to healthy food, air pollution, living conditions, and overall resources all contribute to differences in health status and longevity.

**Map of Life Expectancy in Denver County, 2021.**

Data Source: Colorado Department of Public Health and Environment

## Disability

In addition, an estimated 22.2% of Denver residents have one or more disabilities, which is lower than national estimates across all types of disabilities.<sup>8</sup> Disabilities can include challenges with cognition, hearing, vision, physical mobility, independent living, and self-care.

**Proportion of the population ≥18 years with a disability, United States and Denver County, 2021**

Source: Centers for Disease Control and Prevention (CDC). PLACES: Local Data for Better Health. 2021.  
<https://places.cdc.gov/>

## Key Chronic and Mental Health Conditions

Generally, adult Denver residents have less burden of key chronic health conditions than the overall US population, including lower rates of high blood pressure, obesity, diabetes, heart disease, and stroke.<sup>8</sup> However, residents of Denver report higher rates of depression, affecting 21.9% of adults and similar rates of asthma (9.7%) than estimates for the nation.

**Prevalence (%) of adults  $\geq 18$  years of age with key chronic conditions, United States and Denver County, 2021.**

Source: CDC. PLACES: Local Data for Better Health. 2021. <https://places.cdc.gov/>

## Health Risk Behaviors

Compared to the United States, Denver residents have better sleep health and engage in more physical activity but have similar rates of smoking and a higher rates of binge drinking.<sup>8</sup>

**Prevalence (%) of health risk behaviors among adults  $\geq 18$  years of age, United States and Denver County, 2021.**

Source: CDC. PLACES: Local Data for Better Health. 2021. <https://places.cdc.gov/>

## Maternal Health

Estimates of maternal mortality rank Colorado as having one of the lowest rates in the nation, yet there is variability in methodology for obtaining data on maternal deaths across states.<sup>5</sup> The statewide rates however are increasing in recent years, at 54.7 pregnancy-related deaths/100,000 live births for the period 2016-2020, partially attributed to an increase in overall drug overdoses. Colorado is among the top 10 highest states with the greatest proportion of live births with low birthweight in the nation.<sup>9</sup> The top factors impacting pregnancy-related deaths are suicide, drug overdose, and obstetric complications. Teen birth rates have been steadily decreasing nationally for the past 2 decades; however, the most current 7-year average (2014-2020) rate of teen pregnancies in Denver of 25/1,000 teenagers aged 15-19 is higher than both rates in Colorado (16/1,000) and the United States (19/1,000).<sup>7</sup> There is also a higher proportion of live births with low birthweight (<2,500 grams) in Denver (9%; approximately 1 in 11 births) and Colorado (9%) than the average for the United States (8%).<sup>7</sup>

## Behavioral Health: Mental Health and Substance Misuse

One of the greatest impacts of the COVID-19 pandemic is the increased burden on mental health and increased use of substances among our communities. From 2019 to 2021, Colorado experienced a large increase in the proportion of individuals who reported their mental health was poor, from 15.3 to 23.7%.<sup>10</sup> In Denver, between 2019 and 2020, the proportion of people reporting  $\geq 8$  days of poor mental health in the previous 30 days increased from 17% to 26.9%. Colorado ranks among the 5 highest states with a compiled score for overall drug use and addiction, which considers drug use prevalence, law enforcement, drug health issues, and rehabilitation.<sup>11,12</sup> An estimated 20% of Colorado residents use illicit drugs. Drug overdoses are also high in Colorado, with 1,799 lives lost to overdose in the state, and 370 of those in Denver, in 2022.<sup>5</sup> Fortunately, more Denver residents are accessing mental health or substance use services in recent years, increasing from 19.1% in 2019 to 20.9% in 2021. Reasons for not accessing mental health services include discomfort in talking about mental health needs and cost.

## Violence and Injury

Injuries are classified into 3 key categories: preventable (accidental), intentional, and undetermined intent. Most injury-related deaths are preventable (72%), but intentional injuries often incur mental and emotional health problems beyond the victim - for family members, friends, and communities.

Poisoning is the leading cause of preventable injury-related deaths in the United States, followed by motor vehicle crashes and falls.<sup>14</sup> In 2020, preventable injuries were responsible for 200,955 deaths in the U.S. In Colorado, the deaths rates for poisoning are 30.4/100,000, for motor vehicle crashes 18.6/100,000, and 18.6/100,000 for falls: these are consistent with rates for the nation.

Intentional injuries include intentional self-harm (suicide), assault (homicide), legal intervention, and operations of war. In 2020, intentional injuries accounted for 71,348 total deaths (26.5% total injuryrelated deaths) nationally, and suicide was the leading cause (45,979, 64.4%). In 2022, there were 1,987 (22.0/100,000) suicides in Colorado, 155 (21.8/100,000) of which were among Denver residents.<sup>5</sup> Despite increases in mental health needs due to the pandemic, suicide rates have remained consistent in Denver and the state in recent years.

Rates of firearm deaths (unintentional and intentional) in Colorado have been steadily increasing since 2016, and significantly increased between 2020 (n=918 deaths) and 2021 (n=1,059).<sup>5</sup>

**Age-adjusted firearm death rates, Colorado 2016-2021.**

Overall and homicide-related firearm deaths in Colorado were highest for residents 19-24 years of age; persons aged 65 years and older had the highest rates of firearm-associated suicide.<sup>5</sup> Homicide claimed the lives of 414 Colorado residents in 2022; 83 of these were in Denver County.

## Age-specific firearm injury mortality rates, Colorado residents, 2020-2021.

Category is not displayed if based on fewer than three events.

Source: Vital Statistics Program, Colorado Department of Public Health and Environment. Error bars represent the lower and upper limits of the 95% confidence interval of the age-adjusted rate.

## Healthcare Insurance and Access

In 2021, an estimated 12.4% of adults 18-64 years of age in Denver were lacking health insurance, similar to estimates for Colorado (12.0%) and higher than the national estimate of 10.8%.<sup>8</sup> Colorado had the second highest state rate of health insurance premium increase in the nation in 2023, creating additional barriers to healthcare access.<sup>15</sup> The number of primary care providers for every one person in Denver (Primary Care Provider Ratio) is 1:730, indicating more availability of providers than the state overall (1:1,200) and nationally (1:1,301).<sup>7</sup> However, only 63.1% of Denver adult residents 18-64 years of age visit a provider for a routine check-up annually, 10.5% lower than national estimates (73.6%).<sup>8</sup> Coloradans that identify as Black, Indigenous, or Persons of Color face disproportionate barriers to care than persons who identify as White, non-Hispanic, with a greater proportion not able to make a primary care appointment when needed (15-26% higher).<sup>10</sup> Barriers differentially experienced by these populations include transportation, needing to work, and childcare needs. Racial discrimination also plays a role in accessing care: the rate of Black/African American and Hispanic Coloradans cite avoiding healthcare due to unfair treatment is twice that reported by White, non-Hispanic residents (4.4-5.4% vs. 2.3% in 2021). Dentists are more scarce in Denver than state-wide, with a Dental Provider Ratio of 1:1,240 compared to 1:1,180 for Colorado, but higher than ratios for the United States (1:1,380).<sup>7</sup> Approximately two-thirds of Denver residents (64.7%) and Americans (64.8%) visit their dental provider annually.<sup>8</sup> There is a greater concentration of mental health providers in Denver (1:140) than in the state (1:230) and the nation (1:340).<sup>7</sup>

## Telehealth

The advent of the COVID-19 pandemic facilitated rapid adoption of telehealth as a mainstream modality for care delivery in the United States. In 2021, over 3.8 million service encounters were provided through telehealth in Colorado (1,263/1,000 persons).<sup>16</sup> Rates of telehealth utilization are higher in Denver County (613,774 healthcare service visits; 1,622/1,000 persons) than across the state. While telehealth holds promise for addressing some of the barriers associated with healthcare access, state and national data illustrate differing telehealth utilization across racial and ethnic groups. Most persons utilizing telehealth services in Colorado identify as White, non-Hispanic (43% of those utilizing telehealth), with only 18% of telehealth utilizers identifying as Hispanic, and 6%

identifying as Black/African American. The most common reason for seeking telehealth services across all racial and ethnic groups was mental health.

### Preventive Care

In Denver, a lower proportion of adults ( $\geq 18$  years) had an annual visit with their primary care provider and a similar annual rate of dental visits as the United States average in 2021.<sup>8</sup> However, the proportion of male and female older adult ( $\geq 65$ ) residents that are up to date for core preventive care measures (flu shot past year, PPV shot ever, colorectal cancer screening, and mammogram past 2 years (women)) is greater in Denver than national estimates.

#### Prevalence of adults engaging in care and meeting core prevention guidelines, United States and Denver County, 2021.

Source: CDC. PLACES: Local Data for Better Health. 2021. <https://places.cdc.gov/>

In addition to healthcare insurance, the circumstances in which people live, work, and play, often referred to as social determinants of health, or health-related social needs, impact healthcare access and overall health.

### Community Connectiveness/Social Support

The Centers for Disease Control and Prevention (CDC) refers to social connectiveness as a sense of belonging among individuals or groups, and a recognized social determinant of health.<sup>9</sup> There is evidence to support higher levels of social connectiveness on well-being and health outcomes, yet there are currently no standardized approaches to measurement and minimal data on our national, state, and local populations. Limited research has shown promise of strategies including psychological therapy, group exercise programs, peer support, companion communications through telephone or other outreach, yet there remains a need to establish evidence-based approaches.

### Homelessness

In 2022, there were an estimated 582,462 (rate 18/10,000) individuals experiencing homelessness in the United States.<sup>17</sup> During the same year, an estimated 10,397 individuals (rate 17.9/10,000) were experiencing homelessness in Colorado, a 5.6% increase since 2020. Between 2006 and 2021, the proportion of Colorado residents experiencing chronic homelessness and relying on shelters grew more than any other state (266%).<sup>17</sup> Two-thirds of persons experiencing homelessness in Colorado are in the 7-county Metro Denver region, estimated

at 6,888 individuals in 2022 (12.8% increase compared to 2020).<sup>18</sup> 4,798 of these individuals were in Denver County; 1,308 (27.3%) of whom were unsheltered. Initial estimates for Denver County in 2023 show a continued increase in persons in need, at 5,818 individuals. In Denver County, homelessness disproportionately impacts persons who identify as black, indigenous, and persons of color.

**Proportion of Denver County population and persons experiencing homelessness in Denver County, 2021-2022 by race and ethnicity.**

Data are from the 2021 1-year estimates for Denver County and the Point-in-Time estimate conducted in January 2022. Sources: Metro Denver Housing Initiative Point in Time Counts, 2022. <http://www.mdhi.org> US Census 2021 1-year population estimates, City and County of Denver. <https://data.census.gov/>

## Food Insecurity

Food insecurity is another major barrier for the communities of Colorado and Denver. An estimated 1 in 3 (33%) Coloradans and Denver residents in 2021 were experiencing food insecurity, triple the rate in 2019.<sup>7</sup>

## Results: Identified Health Priorities

The following health concerns, based on primary and secondary data, were reviewed by the Denver Health Community Benefit Advisory Committee: access to care, community connectedness/social support, mental health, substance use disorders, health care costs/insurance, and diabetes. Community members thought DH was overall positioned to address all of these needs. After review and scoring by the Denver Health Community Benefit Advisory Council, the three priority areas of focus for the current CHNA and three-year Community Benefit Implementation Plan were identified as:

1. Access to Care
2. Behavioral Health (Mental Health and Substance Misuse)
3. Housing and Homelessness

These focus areas were approved by the Denver Health and Hospital Authority Board on September 21, 2023.

## Areas not Addressed

While the Committee did not include issues such as community connectedness/social support as a final priority area, they included discussion around the intersection of community connectedness within the identified priorities, including access and continuity of care, mental health and substance misuse, and housing stability. In addition, the Community Benefit Implementation Plan will include review of current efforts and evidence-based strategies such as peer support in facilitating improved health. Adolescent health was also not included in the final priorities due to the nature of the priority areas including individuals across the lifespan, which includes adolescents. The Committee also recognized diabetes as the only singular disease condition included in topics identified by community members and intends to consider the impact of efforts focused on improving healthcare access and facilitating resources for health-related social needs (including housing stability) on individuals with chronic disease conditions.

## Conclusions

The 3 health priorities identified in the current CHNA include:

- Access to Care,
- Behavioral Health (including Mental Health and Substance Misuse), and
- Housing and Homelessness.

These priorities were identified based on input from community partners, individuals in the community, and secondary data; prioritization considered burden, the presence of health disparities, existing evidence-based strategies, and the ability of Denver Health to address the issue. These priorities align with local<sup>19</sup> and state<sup>20</sup> strategic health areas of focus, and the key considerations in addressing priorities including community engagement and equity. These priorities are consistent with existing work, work we have planned, and new ventures with community partners. Working to address these priorities is meaningful work that we trust will improve the health of our Denver community.

## Acknowledgements

We would like to thank our community partners and community members who have voiced their perspectives and engaged with Denver Health over the years to continuously reflect and improve upon our approaches and strategies to support and optimize the health of our greater Denver community. We are appreciative of the organizational leaders and individuals who took time to complete our survey or engage in discussions to identify top health concerns in Denver. The written content and input through facilitated dialogue will be used to inform details of our Community Benefit Implementation Plan. We appreciate the time and investment of our internal Denver Health Community Benefit Advisory Board (see Appendix D for members). Finally, we would like to express our gratitude to the many additional staff members across Denver Health who have provided support and guidance through this effort, including navigating data sources, connecting with community groups, and aligning with organizational efforts. We specifically would like to thank Abbie Steiner, Stephanie Nunez, Steve Federico, and Sarah Belstock.

## Appendix A: Denver Health Community Benefit Annual Public Meeting

### Methods

Denver Health and Hospital Authority held two online forums on June 12, 2023 one each within and outside business hours with both Spanish and American Sign Language simultaneous interpretation offered. These forums were advertised through an e-mail invitation that was sent to 180 community leaders, as well as public notices in the June 2 and 9 editions of Colorado Politics and in the June 2 editions of LaVoz and Westword.

The meeting followed an agenda including review and feedback regarding Community Benefit Implementation Plan Activities in 2022, and recommended Community Benefit priorities for the 2023 CHNA. Feedback was requested verbally and through the zoom chat feature. The questions prompting participant Community Benefit engagement included:

- What feedback do you have for Denver Health regarding their community benefit work?
- We are beginning a new community health needs assessment. What are the top three health concerns in your community?

### Results

We recorded the following 12 participants from organizations outside Denver Health. The participants included representatives of health alliances, refugee services, advocacy organizations, and health care.

<b>Name</b>	<b>Organization</b>	<b>Title / Position</b>
Vicente Cardona	Mile High Health Alliance	Executive Director
Mandy Ashley	Aurora Health Alliance	Executive Director
Victoria Nava-Watson	Denver Public Library System	Community Engagement Manager
Alexandra Soto	Spring Institute	Program Manager
Kerin May	Spring Institute	Interpretation Coordinator I
Deborah Ward-White	Families Forward Resource Center	Family Advocate
Gerald O. Caldwell	Families Forward Colorado	Family Advocate
Erin Ostlie-Madden	Center for Health Progress	Member
Gillian Brautigam	Center for Health Progress	Member

Carly Weisenberg	Center for Health Progress	Senior Health Care Organizer
Joe Sammen	Center for Health Progress	Co-Executive Director
Carla Mickelson	Colorado Coalition for the Homeless	Community Health Nurse Manager

Participants in the public meeting were very grateful to Denver Health and noted that we were doing work that supports the community. They stressed the importance of partnership and recommended the following areas for focus:

- Affordable and safe housing
- Community connectedness (including connecting patients to organizations that do grassroots organizing work)
- Social support (especially for patients who have a hospital/jail/street trajectory maybe due to cognitive and memory issues)
- Access to care, including:
  - a. Primary care after ED visits
  - b. Effective prenatal care for young African American mothers
  - c. Higher levels of care for patients who are unable to be successful at nursing homes due to SUD, behavior issues, needing housing and community based services
  - d. Substance use disorder services
  - e. Care provided outside traditional health care settings
    - i. Helping the Black community get proper medical care (e.g., blood pressure checks and diabetes care); using outreach, transportation options, utilizing mobile vans or barber shops
- Fatherhood (recognizing this is very special and that now is time to change what a father is- a great provider, but also a nurturing man- we need to nurture our children).

## Appendix B: Denver Health Community Benefit Public Survey

### Methods

A brief survey was created to further solicit input from community-based organizations, community members, and patients and members of existing Denver Health Community Advisory Committees to identify community health priorities.

This survey was distributed to contacts including:

- A list of 180 community organization and local government leaders who were invited to the annual DH community benefit presentation, and people they passed the survey to via direct email distribution lists, newsletters, and social media
- The Denver Health Patient and Family Advisory Committee, a committee

- The Denver Health Office of Research Community Advisory Panel

The survey solicited responses to two primary questions with response options based on priorities identified in the Community Benefit Public Meeting and known community health domains.

The primary questions were:

- What are the TOP 3 health concerns in your community?
- What 3 areas do you think Denver Health can most impact?

The survey also included open-ended responses for specification on why the issues selected are important, how Denver Health could best impact the issue or concern, and for suggestions of additional community partners that would be useful in addressing priorities.

Participants were also asked to describe themselves based on various demographic questions and type of organizational affiliation for respondents from community-based organizations.

- Servicios de La Raza
- Thriving Families
- Village Exchange
- Well Power
- Youth Seen

## Appendix C: Facilitated Denver Health Community Benefit Public Survey Conversation

### Methods

On August 18, 2023 a focus group was conducted among participants attending the Denver Health Center for Addiction Medicine monthly Community Advisory Meeting to discuss community health priorities. The purpose of this group is to engage patients and other community members with lived experience with substance use and recovery in shaping programs, patient care initiatives, and research related to mental health and substance use care at Denver Health. The monthly meetings are an open roster of individuals who express interest in participation without a requirement for continued engagement; however, many of the participants are regular monthly attendees. The number of attendees monthly ranges from 15-25.

The focus group was guided based on the primary questions of the Community Benefit Public Survey, querying around the top 3 health priorities for the community and the top 3 health concerns that Denver Health could most impact. The discussion provided additional details on reasons for concern and actionable suggestions.

# INTRODUCTION

Since 1860, Denver Health has provided health and healing to the Denver community, consistently identifying and addressing the city's most pressing health needs. The work to address these challenges is something we do more fully with strong and deep community connections. This Denver Health 2024-2026 Implementation Plan reflects our connections with the community, to jointly address health needs prioritized in our 2023 Community Health Needs Assessment. Below are our updated vision, mission, values and foundation that guide our initiatives.

## Our Vision

To be the most trusted health care provider in Colorado.

## Our Mission

Provide all in our community with access to the highest-quality and equitable health care regardless of their ability to pay.

Educate the next generation of health care professionals serving our community.

Engage in research and community partnerships to better deliver the health care needs of our patients.

## Our Values

Respect  
Belonging  
Transparency  
Accountability

## Our Foundation

Diversity  
Equity  
Inclusion  
Belonging

# COMMUNITY HEALTH NEEDS

## 2023-2025 Community Health Needs Assessment (CHNA)

The Community Health Needs Assessment published by Denver Health in 2023 was informed by both opinions and perspectives collected directly from individual community members and individuals who represent various Denver-area constituencies, as well as secondary data from local, state, and national sources. Together, this process helped identify numerous critical needs in the Denver community.

## Prioritizing and Selecting Areas of Focus

After receiving community input from a broad range of individuals and partner organizations, Denver Health set out a process to identify areas of focus for Denver Health's Implementation Plan. The Denver Health Community Benefit Advisory Council applied the Colorado Health Assessment and Planning System Prioritization Scoring Tool, considering factors of health condition burden, health disparities, organizational priorities, evidence-based strategies for addressing needs, and staff and financial resources, to identify the top three priorities for the 2023-2025 CHNA.

## Priority Health Needs

Community members independently identified the several health priorities. After review and scoring by the Denver Health Community Benefit Advisory Council and Approval by the Denver Health and Hospital Authority Board on September 21, 2023, the three priority areas of focus for the current CHNA are:

- Access to Care
- Behavioral Health (Mental Health and Substance Misuse)
- Housing and Homelessness

# IMPLEMENTATION PLAN

Denver Health’s 2024-2026 Implementation plan addresses the health priorities from our most recent Community Health Needs Assessment (CHNA). This Implementation Plan addresses our three priority areas, including input from our Patient Family and Advisory Council and approval by the Denver Health Community Benefit Advisory Council, a group of executives and other leaders of the organization. This plan will be monitored for annual reporting on our efforts to address priority areas in accordance with House Bill 1320.

## Priority 1: Enhance Community Access to Care

Our 2023 Community Health Needs Assessment re-emphasized Denver’s need for enhanced access to health care services. Addressing this need is consistent with Denver Health’s mission to “provide all in our community with access to highest-quality and equitable health care regardless of ability to pay,” and Denver Health addresses this need through our implementation plan initiatives impacting health care access to high-quality equitable care. Because of Denver Health’s commitment to make health care accessible, Denver Health ended 2023 with \$140 million in uncompensated care for patients who are uninsured or under-insured. Beyond financial access Denver Health also increases access to care by:

- Extensive medical and behavioral telehealth, including a partnership with Denver Housing Authority, where senior adults living in low-income housing receive education on digital literacy and access to technology for virtual healthcare appointments with DH providers. Denver Health
- E-consults, significantly increase access to specialty care
- Transportation assistance to patients in need, including funding DH secured through grants and private funders through the Denver Health Foundation to provide Regional Transportation District (RTD) bus tickets and Lyft ride-share vouchers
- Outpatient care navigators that support patients in addressing social needs and accessing care.

To make care more equitable, Denver Health is committed to having a workforce with a racial/ethnic composition that mirrors the general community. In 2023, Denver Health hired a Chief Diversity, Equity, Inclusion, and Belonging Officer who works within Human Resources both to recruit and promote a diverse workforce and train the existing workforce so there is a stronger feeling of inclusion and belonging for the patients who receive care at Denver Health. This effort, combined with partnerships with community organizations to support health for individuals across the state, helps fulfill Denver Health’s vision of being the most trusted health care provider in Colorado. Denver Health’s Community Benefit Implementation Plan initiatives related to enhancing community access to care are outlined below in Table 1.

**Table 1: Access to Care Initiatives**

Goal/Priority/initiative	Activities	Impact	Outcome or evaluation metric	Existing or planned collaborations	Resources
<b><i>Provide patients with access to care regardless of ability to pay</i></b>	Payment of uncompensated care	Patients are afforded health care that would otherwise be unavailable	Dollars in uncompensated care	Health Care Policy & Financing	Budgeted dollars
<b><i>Provide e-consults for specialty care</i></b>	Various Denver Health specialty providers conduct e-consults to help reduce appointment demand	Improved specialty care access	Numbers of e-consults provided	Stout St. Clinic	Staff time
<b><i>Provide access to virtual care</i></b>	Provide virtual primary and specialty care services.	Improved health care access	Number of people served	Denver Housing Authority (DHA)	Staff time, equipment

Goal/Priority/initiative	Activities	Impact	Outcome or evaluation metric	Existing or planned collaborations	Resources
<b><i>Transportation to services when needed</i></b>	Obtain and distribute transportation vouchers, coordinate Medicaid transport, and arrange ride share for patients in need	Improved appointment attendance	Number of transportation trips provided	RTD, Lyft	Budgeted dollars, grants, state resources
<b>Initiatives from the Chief Diversity, Equity, Inclusion, and Belonging Officer and Chief Patient Experience Officer</b>	Enhance recruitment, training to serve the ethnically/ racially diverse population of Denver	Improved patient experience	Patient experience scores; ethnic/racial composition of the DH workforce	Community Based Organizations	Staff time
<b><i>Metro Denver Partnership for Health (MDPH) participation</i></b>	Ongoing collaboration with Metro-region public health and health care partners to address priority needs	Collaborative approaches to working with public health and he	Coordinated approaches to addressing community health needs	Seven-county Denver metro collaboration including local public health agencies (LPHAs), health systems, and Regional Accountable Entities	Staff time

## Priority 2: Enhance Behavioral Health Services

Behavioral health, including substance misuse and mental health conditions, have been consistently identified as key issues affecting members of our community. Denver Health is the largest provider of behavioral health care and continues to prioritize increasing behavioral health services as part of its community benefit implementation plan.

Denver Health offers integrated behavioral health within our school-based health centers and community based primary health clinics. Denver Health has both adolescent and adult inpatient psychiatric wings and has also created a first in the country youth withdrawal management facility. Specific to youth violence, youth and adults access the emergency department for violence-related injuries, a time of heightened readiness-to-change, At-Risk Intervention and Mentoring (AIM)s available to patients to help mentor them in breaking the cycle of violence. AIM is Denver's only hospital-based violence intervention program (HVIP) that uses best practices from the National Network of Hospital-based Violence Intervention Programs (NNHVIP), trauma-informed care and a public health approach that utilizes data and research to interrupt the cycle of violence among Denver's at-risk youth and young adults.

The Center for Addiction Medicine (CAM), established in 2019, is an executive sponsored initiative responsible for coordinating a broad range of addiction services, research and evaluation, and education across the Denver Health system and the community. The CAM's vision is to be a compassionate model for the prevention and treatment of substance misuse, to transform lives and to educate all. Directed by leadership from Denver Health's outpatient behavioral health services and public health departments, the CAM is an effort to ensure there is no wrong door to optimized treatment services. The CAM operates several cross-sector workgroups and is a pivotal resource in the execution of this priority. The behavioral health initiatives within our Community Benefit implementation plan are outlined in Table 2 below.

**Table 2: Denver Health Behavioral Health Initiatives**

Goal/Priority/initiative	Activities	Impact	Outcome or evaluation metric	Existing or planned collaborations	Resources
<b><i>Integrated Behavioral Health</i></b>	Social workers are integrated into our community and school-based primary care facilities	Increased access to convenient behavioral health care services	Number of people served	Denver Health Federally Qualified Health Centers, including our community and school-based clinics.	Staff time
<b>Substance Use Navigation (SUN) Program</b>	<i>Employ substance use navigators to support community members in their recovery from substance use disorder</i>	Improve rates of recovery services engagement	Number of peers and navigators engaged or hired Number of people served.	City and County of Denver Contract	
<b><i>At-Risk Intervention and Mentoring Program (AIM)</i></b>	Collaborate with community partners to access and mentor youth and adults involved with violence at a time when there is heightened readiness to change, i.e., when patients are in the Emergency	Intervening to interrupt cycles of violence in families and communities	Number of people who receive intervention	Gang Rescue and Support Project (GRASP)	Staff time

	Department with violence-related injuries				
<b>Center for Addiction Medicine Academy</b>	Technical assistance and support to help implement comprehensive, trauma-informed treatment for substance use disorders (SUD).	An Educated and informed workforce and community to treat substance use disorder	Number of people trained	Health and Community partners in Colorado and the surrounding region, supporting Iowa, Kansas, Missouri, Nebraska, Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming.	Staff time
<b>CAM Technical Resource and Information Line (TRAIL)</b>	Provide 1) a line for community members/family with substance misuse that are ready to engage in treatment, and 2) an e-consult service for Denver Health healthcare professionals who need help screening and linking their patients with SUD to care.	Expanded access and utilization of behavioral health services	Number of treatment resources in the resource inventory Number of calls to CAM TRAIL by providers and other community members Number of hospital partners	Planning to collaborate city-wide with community resources addressing substance use disorder	Staff time
<b>Access Transformative Outreach Program (ATOP)</b>	Provide intensive case management with a multidisciplinary team for Colorado Access members with severe substance use disorders (18 visits in 6 months)	Reduce use of health care services	Number of patients served	Colorado Access	Staff time
<b>Transforming Health by Reducing Inequities for the Vulnerable (THRIVE)</b>	Inter-agency collaboration and coordination to address social needs of at-risk youth, people who are justice involved and/or experiencing homelessness	Reducing hospital and ED readmissions, self-harm and jail bookings	Number of staff trained in care coordination; Number of FTE hired for patient care; Number of patients supported	Multiple city agencies, e.g., Public Safety, Public Health and Environment, Housing Stability, as well as Colorado Access, Caring for Denver	Staff time
<b>Integrate community voice and peer support through the CAM</b>	Focus groups with community advisory boards for CAM programming; bolster peer support	Ensuring programs meet the needs of people with lived experience	Community voice informs CAM programs, helping address gaps in the continuum of care	DH Community Advisory Boards, Harm Reduction Action Center, Mile High Behavioral Health, DDPHE	Staff time
<b>Family Oriented Resilience Growth and</b>	Train future clinicians in trauma-	Prevent and provide early	Number of clinicians trained	Community organizations	Staff time

<b><i>Empowerment (FORGE program)</i></b>	informed non-stigmatizing care Cultivate strong community relationships to reduce stigma and other barriers to care Advance health system research with these historically marginalized families	intervention for children impacted by parental substance misuse, parental incarceration, housing instability, and intimate partner violence	Number of community education programs provided Number of families served	interested in hosting educational sessions	
<b><i>CAM Continuum of Care Evaluation</i></b>	Measure the effectiveness of health system protocols and interventions on engaging and retaining patients in SUD treatment	Intervention effectiveness is known and systems for monitoring can be used for ongoing quality improvement	Percentage of different populations engaged and retained in care	Denver Health departments	Staff time
<b><i>Beginning Early and Assertive Treatment for Methamphetamine Use Disorder (BEAT Meth)</i></b>	Develop and evaluate a comprehensive linkage and engagement and retention in treatment program for patients with methamphetamine use disorder	Establishing the effectiveness of the Beat Meth intervention	30 and 90-day treatment retention rates Health and health services outcomes	Denver Cares	Staff time
<b><i>Transforming Health by Reducing Inequities for the Vulnerable - Jail to Community Overdose Intervention (THRIVE-JOI)</i></b>	Care navigation and peer recovery specialists link people who have been incarcerated and have Substance Use Disorders (SUD) to medical, SUD, and other BH care and social supports	Effective linkage, retention in care, recovery, and connections to social needs, supporting overall well-being, health and social needs	Number of people served	Denver Sheriff's Department, Second Chance Center	Staff time
<b><i>Utilizing Peers for Linkage, Innovation, and to Foster Thriving (UPLIFT), a Peer Support Hub and model of care</i></b>	Establishing a peer support hub and supporting non-clinical approaches to enhance recovery	Level of cohesion among peer providers Clients are more engaged and retained in care	Peers feeling supported to provide care Numbers of people engaged in non-clinical support approaches	Colorado Health Foundation	Staff time
<b><i>Screening, Brief Intervention and Referral to Treatment (SBIRT)</i></b>	Provide screening for patients in the Emergency Room	Improved access to behavioral health care	Number of people screened	Denver Health ED	Staff time
<b><i>Increase research on healthcare connections</i></b>	Engage patients in research to increase behavioral health	Improve knowledge and care for patients	Number of research studies happening.	City and county of Denver, Various DH departments	Staff time

<b><i>with behavioral health patients</i></b>	care follow-up post discharge.				
<b><i>Increase access to methadone through a mobile unit available in more locations.</i></b>	Locate MoMAT unit in at least 2 locations	Improve access to methadone for patients recovering from substance misuse.	Number of people that access the MoMAT unit	Other Denver Health clinics	Staff time

### Priority 3: Partnering to Enhance Access to Housing Resources

The Denver Health Community Health Needs Assessment highlighted the paramount importance of addressing homelessness in Denver. With a large percentage of our patients experiencing homelessness, we are dedicated to partnering to provide more immediate housing resources to our patients experiencing homelessness. We plan to continually improve available resources by researching the impact of homelessness on health and health care, and then by using that information to partner appropriately to link patients to housing as efficiently as possible. Below in Table 3 Denver Health's initiatives to address homelessness are detailed.

**Table 3: Initiatives to Address Housing Needs and Unsheltered Homelessness**

<b>Goal/Priority/initiative</b>	<b>Activities</b>	<b>Impact</b>	<b>Outcome or evaluation metric</b>	<b>Existing or planned collaborations</b>	<b>Resources</b>
<b><i>Provide Transitional Housing to Denver Health patients</i></b>	Lease 14 units at 655 Broadway to provide short-term bridge housing	Decrease time to connections to housing.	Number of patients housed in a 655 Broadway unit	Denver Housing Authority	Leased units
<b><i>Maintain Recuperative Care Lease to Support Unhoused Patients Discharged from Denver Health</i></b>	Lease 20 recuperative care beds each month	Provide access to recuperative care for patients	Number of patients discharged to Recuperative Care Beds	Colorado Coalition for the Homeless	Leased Beds
<b><i>Advocate for Additional Housing Options for Unhoused People who Access Denver Health</i></b>	Meeting city and state partners to identify additional opportunities to implement door-to-door transitions from Denver Health to Housing	Increase awareness of the types of housing needed by people with high health or complex needs.	Number of additional beds or units, e.g., respite, housing, treatment beds available to Denver Health patients	Colorado Department of Local Affairs, Denver City's Mayor's office, Colorado Coalition for the Homeless, Health Care Policy & Financing	Staff time
<b><i>Advance Research on Homelessness and Health Care and the Impact of Housing Interventions</i></b>	Point in time counts of unhoused people in the hospital; participate in evaluations of hospital-housing interventions	Provide data to support conversations and advocacy related to linking hospitals to housing	Papers written or presentations provided	Colorado Coalition for the Homeless, other local and state partners	Staff time

## CONCLUSION

Denver Health Community Benefit Implementation Plan for 2024-2026 underlines our commitment to work for and with the communities we serve. This plan provides details of the different ways we are working to improve community health through 2026.

This plan will be refined and updated at least annually based on community input and internal updates, all the time working toward our vision of being the most trusted health care provider in Colorado.

1343242

### Part I Financial Assistance and Certain Other Community Benefits at Cost

- 1a** Did the organization have a financial assistance policy (FAP) during the tax year? If "No," skip to question 6a
- 1b** If "Yes," was it a written policy?
- 2** If the organization had multiple hospital facilities, indicate which of the following best describes application of the FAP to its various hospital facilities during the tax year:
- ☐ Applied uniformly to all hospital facilities ☒ Applied uniformly to most hospital facilities
- ☐ Generally tailored to individual hospital facilities
- 3** Answer the following based on the financial assistance eligibility criteria that applied to the largest number of the organization's patients during the tax year.
- a** Did the organization use federal poverty guidelines (FPG) as a factor in determining eligibility for providing *free* care? If "Yes," indicate which of the following was the FPG family income limit for eligibility for free care:
- ☐ 100% ☐ 150% ☐ 200% ☒ Other 40%
- b** Did the organization use FPG as a factor in determining eligibility for providing *discounted* care? If "Yes," indicate which of the following was the family income limit for eligibility for discounted care:
- ☐ 200% ☒ 250% ☐ 300% ☐ 350% ☐ 400% ☐ Other \_\_\_\_\_%
- c** If the organization used factors other than FPG in determining eligibility, describe in Part VI the criteria used for determining eligibility for free or discounted care. Include in the description whether the organization used an asset test or other threshold, regardless of income, as a factor in determining eligibility for free or discounted care.
- 4** Did the organization's FAP that applied to the largest number of its patients during the tax year provide for free or discounted care to the "medically indigent"?
- 5a** Did the organization budget amounts for free or discounted care provided under its FAP during the tax year?
- b** If "Yes," did the organization's financial assistance expenses exceed the budgeted amount?
- c** If "Yes" to line 5b, as a result of budget considerations, was the organization unable to provide free or discounted care to a patient who was eligible for free or discounted care?
- 6a** Did the organization prepare a community benefit report during the tax year?
- b** If "Yes," did the organization make it available to the public?
- Complete the following table using the worksheets provided in the Schedule H instructions. Do not submit these worksheets with the Schedule H.

<b>k</b>	<b>Total.</b> Add lines 7d and 7j . . . . .			\$930,783,239	\$754,493,216	\$176,290,023	11.77%

**Part II**

**Community Building Activities. Complete this table if the organization conducted any community building activities during the tax year, and describe in Part VI how its community building activities promoted the health of the communities it serves.**

	(a) Number of activities or programs (optional)	(b) Persons served (optional)	(c) Total community building expense	(d) Direct offsetting revenue	(e) Net community building expense	(f) Percent of total expense
1	Physical improvements and housing					
2	Economic development					
3	Community support					
4	Environmental improvements					
5	Leadership development and training for community members					
6	Coalition building					
7	Community health improvement advocacy					
8	Workforce development					
9	Other					
10	<b>Total</b>					

**Part III Bad Debt, Medicare, & Collection Practices****Section A. Bad Debt Expense**

		Yes	No
1	Did the organization report bad debt expense in accordance with Healthcare Financial Management Association Statement No. 15?	1	✓
2	Enter the amount of the organization's bad debt expense. Explain in Part VI the methodology used by the organization to estimate this amount . . . . .	2	211,245,478
3	Enter the estimated amount of the organization's bad debt expense attributable to patients eligible under the organization's FAP. Explain in Part VI the methodology used by the organization to estimate this amount and the rationale, if any, for including this portion of bad debt as community benefit . . . . .	3	1,216,820
4	Provide in Part VI the text of the footnote to the organization's financial statements that describes bad debt expense or the page number on which this footnote is contained in the attached financial statements.		

**Section B. Medicare**

5	Enter total revenue received from Medicare (including DSH and IME) . . . . .	5	33,477,180
6	Enter Medicare allowable costs of care relating to payments on line 5 . . . . .	6	30,854,076
7	Subtract line 6 from line 5. This is the surplus (or shortfall) . . . . .	7	2,623,104
8	Describe in Part VI the extent to which any shortfall reported on line 7 should be treated as community benefit. Also describe in Part VI the costing methodology or source used to determine the amount reported on line 6. Check the box that describes the method used: <input type="checkbox"/> Cost accounting system <input checked="" type="checkbox"/> Cost to charge ratio <input type="checkbox"/> Other		

**Section C. Collection Practices**

9a	Did the organization have a written debt collection policy during the tax year? . . . . .	9a	✓
9b	If "Yes," did the organization's collection policy that applied to the largest number of its patients during the tax year contain provisions on the collection practices to be followed for patients who are known to qualify for financial assistance? Describe in Part VI	9b	✓

**Part IV**

**Part V Facility Information** (continued)**Section B. Facility Policies and Practices**

(complete a separate Section B for each of the hospital facilities or facility reporting groups listed in Part V, Section A)

Name of hospital facility or letter of facility reporting group: Denver Health and Hospital Authority**Line number of hospital facility, or line numbers of hospital**facilities in a facility reporting group (from Part V, Section A): 1

	Yes	No
<b>Community Health Needs Assessment (CHNA)</b>		
<b>1</b> Was the hospital facility first licensed, registered, or similarly recognized by a state as a hospital facility in the current tax year or the immediately preceding tax year? . . . . .	<b>1</b>	✓
<b>2</b> Was the hospital facility acquired or placed into service as a tax-exempt hospital in the current tax year or the immediately preceding tax year? If "Yes," provide details of the acquisition in Section C . . . . .	<b>2</b>	✓
<b>3</b> During the tax year or either of the 2 immediately preceding tax years, did the hospital facility conduct a CHNA? If "No," skip to line 12 . . . . .	<b>3</b>	✓
If "Yes," indicate what the CHNA report describes (check all that apply):		
<b>a</b> <input checked="" type="checkbox"/> A definition of the community served by the hospital facility		
<b>b</b> <input checked="" type="checkbox"/> Demographics of the community		
<b>c</b> <input checked="" type="checkbox"/> Existing health care facilities and resources within the community that are available to respond to the health needs of the community		
<b>d</b> <input checked="" type="checkbox"/> How data was obtained		
<b>e</b> <input checked="" type="checkbox"/> The significant health needs of the community		
<b>f</b> <input checked="" type="checkbox"/> Primary and chronic disease needs and other health issues of uninsured persons, low-income persons, and minority groups		
<b>g</b> <input checked="" type="checkbox"/> The process for identifying and prioritizing community health needs and services to meet the community health needs		
<b>h</b> <input checked="" type="checkbox"/> The process for consulting with persons representing the community's interests		
<b>i</b> <input type="checkbox"/> The impact of any actions taken to address the significant health needs identified in the hospital facility's prior CHNA		
<b>j</b> <input type="checkbox"/> Other (describe in Section C)		
<b>4</b> Indicate the tax year the hospital facility last conducted a CHNA: 20 <u>23</u>		
<b>5</b> In conducting its most recent CHNA, did the hospital facility take into account input from persons who represent the broad interests of the community served by the hospital facility, including those with special knowledge of or expertise in public health? If "Yes," describe in Section C how the hospital facility took into account input from persons who represent the community, and identify the persons the hospital facility consulted . . . . .	<b>5</b>	✓
<b>6a</b> Was the hospital facility's CHNA conducted with one or more other hospital facilities? If "Yes," list the other hospital facilities in Section C . . . . .	<b>6a</b>	✓
<b>b</b> Was the hospital facility's CHNA conducted with one or more organizations other than hospital facilities? If "Yes," list the other organizations in Section C . . . . .	<b>6b</b>	✓
<b>7</b> Did the hospital facility make its CHNA report widely available to the public? . . . . .	<b>7</b>	✓
If "Yes," indicate how the CHNA report was made widely available (check all that apply):		
<b>a</b> <input checked="" type="checkbox"/> Hospital facility's website (list url): <u><a href="https://www.denverhealth.org/-/media/files/about/2023-dhha-community-h">https://www.denverhealth.org/-/media/files/about/2023-dhha-community-h</a></u>		
<b>b</b> <input type="checkbox"/> Other website (list url): _____		
<b>c</b> <input type="checkbox"/> Made a paper copy available for public inspection without charge at the hospital facility		
<b>d</b> <input type="checkbox"/> Other (describe in Section C)		
<b>8</b> Did the hospital facility adopt an implementation strategy to meet the significant community health needs identified through its most recently conducted CHNA? If "No," skip to line 11 . . . . .	<b>8</b>	✓
<b>9</b> Indicate the tax year the hospital facility last adopted an implementation strategy: 20 <u>24</u>		
<b>10</b> Is the hospital facility's most recently adopted implementation strategy posted on a website? . . . . .	<b>10</b>	✓
<b>a</b> If "Yes," list url: <u><a href="https://www.denverhealth.org/-/media/files/about/denver-health-and-hospital-2024-implementation">https://www.denverhealth.org/-/media/files/about/denver-health-and-hospital-2024-implementation</a></u>		
<b>b</b> If "No," is the hospital facility's most recently adopted implementation strategy attached to this return? . . . . .	<b>10b</b>	
<b>11</b> Describe in Section C how the hospital facility is addressing the significant needs identified in its most recently conducted CHNA and any such needs that are not being addressed together with the reasons why such needs are not being addressed.		

- 12a** Did the organization incur an excise tax under section 4959 for the hospital facility's failure to conduct a CHNA as required by section 501(r)(3)? . . . . .
- b** If "Yes" to line 12a, did the organization file Form 4720 to report the section 4959 excise tax? . . . . .
- c** If "Yes" to line 12b, what is the total amount of section 4959 excise tax the organization reported on Form 4720 for all of its hospital facilities? \$ .....

<b>g</b> <input checked="" type="checkbox"/> Residency		
<b>h</b> <input type="checkbox"/> Other (describe in Section C)		
<b>14</b> Explained the basis for calculating amounts charged to patients? . . . . .	✓	
<b>15</b> Explained the method for applying for financial assistance? . . . . . If "Yes," indicate how the hospital facility's FAP or FAP application form (including accompanying instructions) explained the method for applying for financial assistance (check all that apply):	✓	
<b>a</b> <input checked="" type="checkbox"/> Described the information the hospital facility may require an individual to provide as part of their application		
<b>b</b> <input checked="" type="checkbox"/> Described the supporting documentation the hospital facility may require an individual to submit as part of their application		
<b>c</b> <input checked="" type="checkbox"/> Provided the contact information of hospital facility staff who can provide an individual with information about the FAP and FAP application process		
<b>d</b> <input type="checkbox"/> Provided the contact information of nonprofit organizations or government agencies that may be sources of assistance with FAP applications		
<b>e</b> <input type="checkbox"/> Other (describe in Section C)		
<b>16</b>	✓	

- 16** Was widely publicized within the community served by the hospital facility? . . . . .
- If "Yes," indicate how the hospital facility publicized the policy (check all that apply):
- a** ☒ The FAP was widely available on a website (list url): <https://www.denverhealth.org/patients-visitors/billing->
  - b** ☐ The FAP application form was widely available on a website (list url): \_\_\_\_\_
  - c** ☒ A plain language summary of the FAP was widely available on a website (list url): [https://www.denverhealth](https://www.denverhealth.org/patients-visitors/billing-)
  - d** ☒ The FAP was available upon request and without charge (in public locations in the hospital facility and by mail)
  - e** ☒ The FAP application form was available upon request and without charge (in public locations in the hospital facility and by mail)
  - f** ☒ A plain language summary of the FAP was available upon request and without charge (in public locations in the hospital facility and by mail)
  - g** ☒ Individuals were notified about the FAP by being offered a paper copy of the plain language summary of the FAP, by receiving a conspicuous written notice about the FAP on their billing statements, and via conspicuous public displays or other measures reasonably calculated to attract patients' attention
  - h** ☒ Notified members of the community who are most likely to require financial assistance about availability of the FAP
  - i** ☒ The FAP, FAP application form, and plain language summary of the FAP were translated into the primary language(s) spoken by limited-English proficiency (LEP) populations
  - j** ☐ Other (describe in Section C) \_\_\_\_\_

**Part V** Facility Information (continued)**Billing and Collections**

Name of hospital facility or letter of facility reporting group:

Denver Health and Hospital Authority

		Yes	No
<b>17</b>	Did the hospital facility have in place during the tax year a separate billing and collections policy, or a written FAP that explained all of the actions the hospital facility or other authorized party may take upon nonpayment? . . . . .		No
<b>18</b>	Check all of the following actions against an individual that were permitted under the hospital facility's policies during the tax year before making reasonable efforts to determine the individual's eligibility under the facility's FAP:		
a	<input type="checkbox"/> Reporting to credit agency(ies)		
b	<input type="checkbox"/> Selling an individual's debt to another party		
c	<input type="checkbox"/> Deferring, denying, or requiring a payment before providing medically necessary care due to nonpayment of a previous bill for care covered under the hospital facility's FAP		
d	<input type="checkbox"/> Actions that require a legal or judicial process		
e	<input type="checkbox"/> Other similar actions (describe in Section C)		
f	<input checked="" type="checkbox"/> None of these actions or other similar actions were permitted		
<b>19</b>	Did the hospital facility or other authorized party perform any of the following actions during the tax year before making reasonable efforts to determine the individual's eligibility under the facility's FAP? . . . . .		✓
If "Yes," check all actions in which the hospital facility or a third party engaged:			
a	<input type="checkbox"/> Reporting to credit agency(ies)		
b	<input type="checkbox"/> Selling an individual's debt to another party		
c	<input type="checkbox"/> Deferring, denying, or requiring a payment before providing medically necessary care due to nonpayment of a previous bill for care covered under the hospital facility's FAP		
d	<input type="checkbox"/> Actions that require a legal or judicial process		
e	<input type="checkbox"/> Other similar actions (describe in Section C)		
<b>20</b>	Indicate which efforts the hospital facility or other authorized party made before initiating any of the actions listed (whether or not checked) on line 19 (check all that apply):		
a	<input checked="" type="checkbox"/> Provided a written notice about upcoming extraordinary collection actions (ECAs) and a plain language summary of the FAP at least 30 days before initiating those ECAs (if not, describe in Section C)		
b	<input checked="" type="checkbox"/> Made a reasonable effort to orally notify individuals about the FAP and FAP application process (if not, describe in Section C)		
c	<input checked="" type="checkbox"/> Processed incomplete and complete FAP applications (if not, describe in Section C)		
d	<input type="checkbox"/> Made presumptive eligibility determinations (if not, describe in Section C)		
e	<input type="checkbox"/> Other (describe in Section C)		
f	<input type="checkbox"/> None of these efforts were made		

**Policy Relating to Emergency Medical Care**

		21	✓
<b>21</b>	Did the hospital facility have in place during the tax year a written policy relating to emergency medical care that required the hospital facility to provide, without discrimination, care for emergency medical conditions to individuals regardless of their eligibility under the hospital facility's FAP? . . . . .	21	✓
If "No," indicate why:			
a	<input type="checkbox"/> The hospital facility did not provide care for any emergency medical conditions		
b	<input type="checkbox"/> The hospital facility's policy was not in writing		
c	<input type="checkbox"/> The hospital facility limited who was eligible to receive care for emergency medical conditions (describe in Section C)		
d	<input type="checkbox"/> Other (describe in Section C)		

**Part V** Facility Information *(continued)***Charges to Individuals Eligible for Assistance Under the FAP (FAP-Eligible Individuals)**Name of hospital facility or letter of facility reporting group: **Denver Health and Hospital Authority**

		Yes	No
<b>22</b>	Indicate how the hospital facility determined, during the tax year, the maximum amounts that can be charged to FAP-eligible individuals for emergency or other medically necessary care:		
<b>a</b>	<input type="checkbox"/> The hospital facility used a look-back method based on claims allowed by Medicare fee-for-service during a prior 12-month period		
<b>b</b>	<input type="checkbox"/> The hospital facility used a look-back method based on claims allowed by Medicare fee-for-service and all private health insurers that pay claims to the hospital facility during a prior 12-month period		
<b>c</b>	<input type="checkbox"/> The hospital facility used a look-back method based on claims allowed by Medicaid, either alone or in combination with Medicare fee-for-service and all private health insurers that pay claims to the hospital facility during a prior 12-month period		
<b>d</b>	<input type="checkbox"/> The hospital facility used a prospective Medicare or Medicaid method		
<b>23</b>	During the tax year, did the hospital facility charge any FAP-eligible individual to whom the hospital facility provided emergency or other medically necessary services more than the amounts generally billed to individuals who had insurance covering such care? . . . . .	<b>23</b>	✓
	If "Yes," explain in Section C.		
<b>24</b>	During the tax year, did the hospital facility charge any FAP-eligible individual an amount equal to the gross charge for any service provided to that individual? . . . . .	<b>24</b>	✓
	If "Yes," explain in Section C.		

Schedule H (Form 990) 2024

**Part V** **Facility Information** *(continued)*

**Section C. Supplemental Information for Part V, Section B.** Provide descriptions required for Part V, Section B, lines 2, 3j, 5, 6a, 6b, 7d, 11, 13b, 13h, 15e, 16j, 18e, 19e, 20a, 20b, 20c, 20d, 20e, 21c, 21d, 23, and 24. If applicable, provide separate descriptions for each hospital facility in a facility reporting group, designated by facility reporting group letter and hospital facility line number from Part V, Section A (“A, 1,” “A, 4,” “B, 2,” “B, 3,” etc.) and name of hospital facility.

Part V, Section B, Line 22. This question is not applicable to Denver Health and Hospital Authority. Hospital organizations must meet the requirements imposed by Section 501(r) in order to be treated as an organization described in Section 501(c)(3). DHHA is not a Section 501(c)

(3) organization.

Schedule H (Form 990) 2024

Section D. Other Health Care Facilities That Are Not Licensed, Registered, or Similarly Recognized as a Hospital Facility

(list in order of size, from largest to smallest)

How many non-hospital health care facilities did the organization operate during the tax year? 39

Name and address	Type of facility (describe)

Provide the following information

- 1 Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II and Part III, lines 2, 3, 4, 8, and 9b.
- 2 Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.
- 3 Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's FAP.
- 4 Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.
- 5 Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (for example, open medical staff, community board, use of surplus funds, etc.).
- 6 Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
